|----|--|
| 1 | PROCEEDINGS |
| 2 | CHIEF JUDGE SLEDGE: Thank you. We |
| 3 | will come to order. Mr. Freedman, is Molly doing |
| 4 | all right? |
| 5 | MR. FREEDMAN: Yes, Your Honor. |
| 6 | CHIEF JUDGE SLEDGE: All right. |
| 7 | Mr. Bloch? |
| 8 | MR. SMITH: Your Honor, I might inquire |
| 9 | before Mr. Faxon testifies, we did have a motion |
| 10 | in limine on his testimony. Are we to assume that |
| 11 | that motion is no longer pertinent? |
| 12 | CHIEF JUDGE SLEDGE: No. |
| 13 | MR. SMITH: Is the testimony should |
| 14 | we have an argument on that issue before or should |
| 15 | we just wait until he says something? How would |
| 16 | you like me to handle that? |
| 17 | CHIEF JUDGE SLEDGE: I think with the |
| 18 | pending motion it would be appropriate to take |
| 19 | that now. |
| 20 | MR. SMITH: Your Honor, our position, |
| 21 | as we have laid out in the motion, is that there |
| 22 | is considerable testimony proposed for Mr. Faxon |

| | Page 294 |
|----|--|
| 1 | in sections 6 and 7 of his testimony that is not |
| 2 | admissible coming from a lay witness under Federal |
| 3 | Rules of Evidence 701. That's the rule that |
| 4 | governs lay opinion, and it specifies that lay |
| 5 | opinion, as opposed to expert opinion, has to be |
| 6 | rationally based on the perception of the witness, |
| 7 | helpful to a clear understanding of the witness' |
| 8 | testimony or the determination of a fact in issue |
| 9 | and, most importantly, not based on scientific, |
| 10 | technical or other specialized knowledge within |
| 11 | the scope of Rule 702. |
| 12 | Rule 702, of course, governs expert |
| 13 | testimony and says specialized, technical or |
| 14 | scientific information has to come in through a |
| 15 | qualified expert who is entitled, because he is an |
| 16 | expert, to express opinions about those kinds of |
| 17 | matters. |
| 18 | And what we see in this portion of |
| 19 | Mr. Faxon's testimony is essentially a warmed-over |
| 20 | summary of the expert economic opinions that the |
| 21 | publishers and songwriters propose to offer |
| 22 | through Dr. Landes, who essentially makes all the |

| | Page 295 |
|----|--|
| 1 | same points, points requiring specialized economic |
| 2 | abilities and knowledge and training about what an |
| 3 | appropriate benchmark would be, what the rate |
| 4 | would be in a free hypothetical market, what rate |
| 5 | is necessary to provide the appropriate incentives |
| 6 | to create the right amount of creativity in the |
| 7 | marketplace, what the value is of music |
| 8 | downloaded music versus music sold on a CD. |
| 9 | These are all not only clearly economic |
| 10 | opinions; they're the exact same opinions that |
| 11 | Dr. Landes will give in his wearing his expert |
| 12 | hat. So we see, A, no purpose to having a fact |
| 13 | witness reiterating all of those opinions, and we |
| 14 | think it is inappropriate for him to do that under |
| 15 | Rule 701, and there is a very good reason. As you |
| 16 | look at if you look at the advisory committee |
| 17 | note to Rule 701 it says they added that proviso |
| 18 | that it can't be based on scientific or technical |
| 19 | or specialized knowledge because they wanted to |
| 20 | prevent exactly what's occurring here, the |
| 21 | presentation of expert opinion testimony through |
| 22 | the guise of a fact witness. So that's our |

| | Page 296 |
|----|---|
| 1 | position. |
| 2 | We set out in appendix A to the motion |
| 3 | the specific sentences in Mr. Faxon's testimony |
| 4 | that we think violates 701 and ought to be |
| 5 | excluded on that basis. |
| 6 | JUDGE ROBERTS: Mr. Smith, aren't most |
| 7 | of these statements of Mr. Faxon merely |
| 8 | generalized statements as to, well, we need an |
| 9 | increase in rates, it would be reasonable for us |
| 10 | to have more money? What's the specific problem |
| 11 | with some of those? |
| 12 | MR. SMITH: Well, Your Honor, we have |
| 13 | actually, I think, been anticipate being pretty |
| 14 | tolerant of testimony that's just argument. For |
| 15 | example, Mr. Israelite's testimony is basically |
| 16 | just their legal argument and their position and |
| 17 | who is the head of the NMPA, and I'm not going to |
| 18 | object to that. |
| 19 | But what you have with Mr. Faxon, if |
| 20 | you turn over to page 17 of our motion that's |
| 21 | the third page of the appendix we have, for |
| 22 | example, in the second bullet point there, "These |

| | Page 297 |
|----|--|
| 1 | rates, all the result of arm's-length |
| 2 | negotiations, show that the current statutory rate |
| 3 | is well below rates that would be negotiated in a |
| 4 | free market, notwithstanding the constraining |
| 5 | effect of the compulsory license." |
| 6 | He is essentially giving the exact |
| 7 | testimony that you hear all the time from |
| 8 | economists about what would be the rate in a free |
| 9 | market, in a hypothetical market, based on some |
| 10 | benchmark which he has expressed the opinion is an |
| 11 | appropriate benchmark for establishing the rate. |
| 12 | He basically says, for example, I think |
| 13 | Ring Tones is a great benchmark to use for |
| 14 | establishing the rate for downloads. Now, there's |
| 15 | a lot of reasons why that might be true or might |
| 16 | not be true, but it's not an opinion that |
| 17 | Mr. Faxon has any expertise about offering. He is |
| 18 | a businessman. He has a lot of financial |
| 19 | accounting abilities. He was the CFO for a while |
| 20 | of the company. But he is not an economist. |
| 21 | Another example he has a whole |
| 22 | section about the sync rights market and how the |

| | Page 298 |
|----|--|
| 1 | sync rights market is an appropriate benchmark for |
| 2 | setting rates for these kinds of royalties. We |
| 3 | have obviously had lots of discussion about that |
| 4 | in prior proceedings. It's done through |
| 5 | economists, experts who give that opinion which |
| 6 | the court then considers and evaluates. |
| 7 | So it is primarily the benchmark |
| 8 | analysis that I think is most egregious. This is |
| 9 | not just simply saying, we need more rate we |
| 10 | need more money, we're losing songwriters, we're |
| 11 | poor. It's saying, here is an economic argument |
| 12 | for why, in a hypothetical market, the rate would |
| 13 | be set at a particular level. |
| 14 | JUDGE ROBERTS: I noticed, in looking |
| 15 | at the highlighted portions that you have of his |
| 16 | testimony, that you seek to have stricken a phrase |
| 17 | that keeps coming up in a lot of them, is value of |
| 18 | music or the value of a song. Is that the |
| 19 | gravamen of your objection when he talks about |
| 20 | value of music? |
| 21 | MR. SMITH: There is a whole section of |
| 22 | his testimony about the enhanced value of music, |

| | Page 299 |
|----|--|
| 1 | which we certainly do object to. That plus the |
| 2 | benchmarks I think are the most important pieces |
| 3 | of it. |
| 4 | JUDGE ROBERTS: Are you saying because |
| 5 | he is a fact witness, he can't talk about value as |
| 6 | opposed to that we need an expert only to talk |
| 7 | about value? |
| 8 | MR. SMITH: I am saying that, Your |
| 9 | Honor. I think in a rate setting proceeding when |
| 10 | you have somebody come in and say the value of |
| 11 | this product ought to be pegged here as opposed to |
| 12 | here, that's something an economist should give an |
| 13 | opinion about. That's not something a businessman |
| 14 | gives an opinion about. |
| 15 | JUDGE WISNIEWSKI: Wouldn't the |
| 16 | businessman have some experience that would be |
| 17 | useful on that issue? |
| 18 | MR. SMITH: Well, certainly the rules |
| 19 | allow businessmen to give opinions about their |
| 20 | businesses. For example, it is quite common for a |
| 21 | person in business to be able to give an opinion |
| 22 | about the value of their business. But to say in |

| | Page 300 |
|----|---|
| 1 | a hypothetical market or in a free market or in a |
| 2 | fair market the price |
| 3 | JUDGE WISNIEWSKI: Wouldn't they have |
| 4 | some knowledge of prices in their market? |
| 5 | MR. SMITH: They may have some |
| 6 | knowledge, Your Honor, but what the rules say is |
| 7 | that when you're doing something that's really |
| 8 | what an economist does, you ought to have an |
| 9 | economist. That's our position. That's what the |
| 10 | rules say. |
| 11 | But, obviously, you know, this is a |
| 12 | matter in the court's discretion. If the court |
| 13 | feels that it will be helpful, obviously we're |
| 14 | simply raising the issue because we do think that |
| 15 | a strict application of Rule 701 would exclude |
| 16 | this evidence. |
| 17 | CHIEF JUDGE SLEDGE: Thank you. |
| 18 | Response? |
| 19 | MR. BLOCH: Your Honor, my view of this |
| 20 | motion, as we have said in our opposition papers, |
| 21 | is that it's nothing short |
| 22 | JUDGE ROBERTS: Counsel, would you |

| | Page 301 |
|----|--|
| 1 | identify yourself? |
| 2 | MR. BLOCH: Sure. My name is Bob Bloch |
| 3 | from Mayer Brown. My view of this motion, as |
| 4 | we've said in our opposition papers, is nothing |
| 5 | short of an effort to keep one of the most |
| 6 | experienced, knowledgeable executives in the music |
| 7 | publishing business from sharing that knowledge |
| 8 | and information with this court and from talking |
| 9 | about contracts that he and his company, the |
| 10 | largest music publishing company in the world, |
| 11 | have entered into with members of the RIAA and |
| 12 | DiMA that are directly relevant to these |
| 13 | proceedings. In fact, I can't think of anything |
| 14 | that is more directly focused on these |
| 15 | proceedings. |
| 16 | Rule 701 clearly permits lay opinion |
| 17 | testimony as long as it is factually based and |
| 18 | will be helpful for a clear understanding of the |
| 19 | issues and determination of facts, and is not |
| 20 | based on scientific, technical and specialized |
| 21 | knowledge within the scope of Rule 702. |
| 22 | There is a long history of cases |

| | Page 302 |
|----|--|
| 1 | allowing business owners and executives to provide |
| 2 | lay opinion testimony, like Mr. Faxon will |
| 3 | provide, based on their everyday work and |
| 4 | professional experience. |
| 5 | CHIEF JUDGE SLEDGE: Isn't that based |
| 6 | on their own business? Isn't that limited to, |
| 7 | say, an owner can say, my business is worth this? |
| 8 | MR. BLOCH: Sure. Sure. |
| 9 | CHIEF JUDGE SLEDGE: Well, if that |
| 10 | owner is not a corporation. |
| 11 | MR. BLOCH: That's correct. |
| 12 | CHIEF JUDGE SLEDGE: An individual can |
| 13 | say, my business is worth this. |
| 14 | MR. BLOCH: Sure. |
| 15 | CHIEF JUDGE SLEDGE: But can an |
| 16 | individual say that either a corporate business is |
| 17 | worth so and so or someone else's business is |
| 18 | worth so and so? |
| 19 | MR. BLOCH: Well, a corporate executive |
| 20 | can certainly talk about his knowledge and |
| 21 | experience of his own business, of his everyday |
| 22 | experience with that business. |

| | Page 303 |
|----|---|
| 1 | CHIEF JUDGE SLEDGE: But he can't say |
| 2 | what it's worth? |
| 3 | MR. BLOCH: Well, he is not giving a |
| 4 | valuation here of what his business is worth. |
| 5 | CHIEF JUDGE SLEDGE: Well, you were |
| 6 | giving generalities, and I was responding. A |
| 7 | corporate representative cannot say what the |
| 8 | business for which he works is worth, can he? |
| 9 | MR. BLOCH: Well, I think it would |
| 10 | depend on the specific circumstances of what the |
| 11 | scope of his knowledge would be. |
| 12 | CHIEF JUDGE SLEDGE: And you're wrong. |
| 13 | I think that requires an expert. |
| 14 | MR. BLOCH: All right. Well, in this |
| 15 | particular case, Mr. Faxon has prodigious |
| 16 | experience that would be relevant and helpful to |
| 17 | the court. In fact, he has been EMI's group |
| 18 | senior vice president for worldwide business |
| 19 | development and strategy. He has been the |
| 20 | executive vice president and chief financial |
| 21 | officer of EMI Music Publishing. He has been the |
| 22 | chief financial officer of EMI Group. He has been |

| | Page 304 |
|----|--|
| 1 | the president and chief operating officer of EMI |
| 2 | Music Publishing. He has been the co-CEO and |
| 3 | as chairman and CEO of EMI Music Publishing. |
| 4 | His testimony will be very valuable to the court |
| 5 | and, in fact, as Mr. Laguarda said yesterday |
| 6 | twice he referred to statements that Mr. Faxon had |
| 7 | made and thought were insightful. |
| 8 | But the fact of the matter is that |
| 9 | Mr. Faxon offers a unique perspective from someone |
| 10 | who has spent 14 years at the largest music |
| 11 | publishing company in the world. He has seen both |
| 12 | the music side of the business, the music |
| 13 | publishing side of the business, and he will |
| 14 | testify about his extensive firsthand experience |
| 15 | in dealing with songwriters, with EMI Music |
| 16 | Publishing's own contracts involving ring tones, |
| 17 | the new digital media agreements with Sony BMG, |
| 18 | Universal and Warner, its unique arrangements with |
| 19 | Skype and SpiralFrog, and EMI's finances, and his |
| 20 | knowledge of industry conditions based on his |
| 21 | experience in the senior executive positions that |
| 22 | he has held. |

| | Page 305 |
|----|--|
| 1 | This motion also challenges whether |
| 2 | Mr. Faxon has sufficient personal knowledge of the |
| 3 | Ring Tone agreements, and the RIAA motion is |
| 4 | premature completely on this issue. No one has |
| 5 | heard his foundation testimony about what his |
| 6 | knowledge and experience is in direct connection |
| 7 | with these agreements. The fact of the matter is |
| 8 | that he will testify that he was directly involved |
| 9 | in these Ring Tone agreements, he helped set the |
| 10 | parameters for those agreements that were |
| 11 | eventually entered into and executed. |
| 12 | CHIEF JUDGE SLEDGE: He has given his |
| 13 | direct testimony already, so he is not going to be |
| 14 | able to testify to anything that's not in his |
| 15 | written testimony. |
| 16 | MR. BLOCH: Correct. |
| 17 | CHIEF JUDGE SLEDGE: So if it's not in |
| 18 | there now, then it's not premature. |
| 19 | MR. BLOCH: Well, I was referring to |
| 20 | his deposition testimony. The motion made |
| 21 | reference to the fact that Mr. Faxon, during his |
| 22 | deposition, did not provide adequate foundation |

| | Page 306 |
|----|---|
| 1 | testimony about his knowledge in connection with |
| 2 | Ring Tone agreements. His testimony |
| 3 | CHIEF JUDGE SLEDGE: Does that change |
| 4 | anything of what I said? |
| 5 | MR. BLOCH: No, not at all. In fact, |
| 6 | he has provided more than sufficient foundation |
| 7 | testimony in his written statement. |
| 8 | CHIEF JUDGE SLEDGE: Well, I don't |
| 9 | understand your point that it's premature, then. |
| 10 | MR. BLOCH: Well, it's premature in the |
| 11 | sense that they're making an objection now to the |
| 12 | fact that he does not have specific knowledge or |
| 13 | will not be able to testify about his knowledge |
| 14 | concerning the circumstances surrounding the Ring |
| 15 | Tone agreements. In other words, they said he |
| 16 | essentially admitted that he didn't know anything |
| 17 | about them, and that's not correct. |
| 18 | He has provided written testimony about |
| 19 | the Ring Tone agreements in which he demonstrates |
| 20 | his knowledge and the foundation for that |
| 21 | knowledge, and he will give that testimony here |
| 22 | today. |

| | Page 307 |
|----|--|
| 1 | CHIEF JUDGE SLEDGE: Well, that sounds |
| 2 | to me like it's not premature, but it's wrong. I |
| 3 | don't understand the word "premature." |
| 4 | MR. BLOCH: It is incorrect. It is |
| 5 | incorrect. But this court has a great deal of |
| 6 | discretion in terms of allowing testimony like |
| 7 | being presented by Mr. Faxon who has had, as I |
| 8 | say, 14 years of experience in the industry, he |
| 9 | has been directly involved in the finances and the |
| 10 | music publishing business. He has worked with |
| 11 | songwriters. He has been involved in the |
| 12 | licensing of EMI's compositions. And he knows as |
| 13 | much about this aspect of the business as anybody |
| 14 | in the music publishing business today, and I |
| 15 | think that would be directly relevant and helpful |
| 16 | to this court's understanding of the context in |
| 17 | which this business is operated and the rates that |
| 18 | this court is considering. |
| 19 | JUDGE WISNIEWSKI: Mr. Bloch, would you |
| 20 | address Mr. Smith's argument about the specific |
| 21 | items that he seeks exclusion on being repetitive |
| 22 | of other witnesses' testimony? |

| | Page 308 |
|----|--|
| 1 | MR. BLOCH: Your Honor, with respect to |
| 2 | that, I don't think it is repetitive at all. It |
| 3 | is not uncommon in any kind of proceeding like |
| 4 | this, where you have experts who actually give |
| 5 | opinions under 702, to base those opinions on the |
| 6 | underlying factual information that's in the |
| 7 | record. So the fact that Professor Landes has |
| 8 | actually looked at, studied EMI's data, EMI's |
| 9 | contracts, whether there are Ring Tone agreements |
| 10 | in the digital agreements, the sync licenses, the |
| 11 | agreements with Skype and SpiralFrog it's |
| 12 | totally unremarkable that Dr. Landes would rely on |
| 13 | those facts in reaching his opinion. |
| 14 | So it turns out that EMI and Mr. Faxon |
| 15 | were directly involved in those agreements. His |
| 16 | testimony will concern the facts of those |
| 17 | agreements, what they are, what the rates were in |
| 18 | those agreements and the circumstances around |
| 19 | them. So he is not offering any opinion testimony |
| 20 | that is specialized knowledge, scientific |
| 21 | knowledge that would fall within the scope of 702. |
| 22 | It is particularized knowledge under 701 that is |

| | Page 309 |
|----|--|
| 1 | within his experience. |
| 2 | JUDGE WISNIEWSKI: Is it just a |
| 3 | coincidence that he comes to the same conclusions? |
| 4 | MR. BLOCH: Well, I think |
| 5 | JUDGE WISNIEWSKI: Based on the |
| 6 | different analysis. |
| 7 | MR. BLOCH: Well, I don't know that |
| 8 | it's a coincidence at all. I mean, I think the |
| 9 | facts drive to that result. And if he has that |
| 10 | independent judgment about what it is and |
| 11 | Mr. Landes Dr. Landes has those same views, I |
| 12 | don't think Mr. Faxon's testimony should be |
| 13 | disregarded at all. I mean, it's based on his |
| 14 | everyday personal experience and professional |
| 15 | experience. |
| 16 | JUDGE WISNIEWSKI: Thank you. |
| 17 | CHIEF JUDGE SLEDGE: Does that last |
| 18 | question summarize this motion: Is a fact witness |
| 19 | entitled to come to a conclusion? |
| 20 | MR. BLOCH: I think a fact witness is |
| 21 | able to make observations and draw inferences from |
| 22 | the facts of what he knows. |

(866) 448.DEPO www.CapitalReportingCompany.com

| | Page 310 |
|----|--|
| 1 | CHIEF JUDGE SLEDGE: It cannot come to |
| 2 | a conclusion? |
| 3 | MR. BLOCH: Well, he is not expressing |
| 4 | an expert economic opinion, if that's your |
| 5 | question. |
| 6 | CHIEF JUDGE SLEDGE: No. My question |
| 7 | is, is a fact witness permitted to come to a |
| 8 | conclusion? |
| 9 | MR. BLOCH: I think a fact witness can |
| 10 | come to a conclusion if it's rationally based on |
| 11 | the facts within his knowledge and experience. |
| 12 | CHIEF JUDGE SLEDGE: A fact witness can |
| 13 | gives facts and can say what the inferences from |
| 14 | those facts are |
| 15 | MR. BLOCH: That's correct. |
| 16 | CHIEF JUDGE SLEDGE: but cannot |
| 17 | conclude anything from those facts. |
| 18 | MR. BLOCH: Well, he is not |
| 19 | Mr. Faxon is not going to be expressing any |
| 20 | opinions or economic opinions. As I've said at |
| 21 | the beginning, he can draw reasonable inferences |
| 22 | based on his experience, and that's all he is |

| | Page 311 |
|----|--|
| 1 | going to do. |
| 2 | JUDGE ROBERTS: Mr. Bloch, you just |
| 3 | said that Mr. Faxon is not going to be expressing |
| 4 | any economic opinions. I would like you to look |
| 5 | at page 28 of his testimony, and starting off with |
| 6 | paragraph 53. In the last sentence of |
| 7 | paragraph 53 in the previous sentence he has |
| 8 | mentioned that EMI, MP and other publishers have |
| 9 | negotiated numerous arm's-length agreements. He |
| 10 | then says, in the last sentence and this is one |
| 11 | of the sentences that the RIAA seeks to have |
| 12 | stricken "These agreements demonstrate that the |
| 13 | rates being proposed by the publishers are |
| 14 | consistent with the rates that would be negotiated |
| 15 | in a free market." |
| 16 | What's Mr. Faxon's qualifications to be |
| 17 | talking about what would be negotiated in a free |
| 18 | market, and isn't that, in fact, exactly what |
| 19 | expert economic testimony is [sic]? |
| 20 | MR. BLOCH: Well, I think what he is |
| 21 | referring to with regard to the these are the |
| 22 | Ring Tone agreements? What he was testifying to |

| | Page 312 |
|----|--|
| 1 | here was that the agreements involving ring tones |
| 2 | in particular were not at the time subject to 115. |
| 3 | The Register had not made that decision yet. So |
| 4 | they were being negotiated in an open market, at |
| 5 | least from EMI's point of view. |
| 6 | And so the rates that were negotiated |
| 7 | that are actually in those Ring Tone agreements |
| 8 | line up with the proposal that is being made by |
| 9 | the music publishers. And so from his experience, |
| 10 | the inference he was drawing from that was that |
| 11 | his experience was consistent with the proposal |
| 12 | the NMPA was making and, in his view, those rates |
| 13 | for the Ring Tone agreements were similar to what |
| 14 | he might expect in a free market. |
| 15 | JUDGE ROBERTS: But isn't anybody who |
| 16 | is speculating on what would take place in a free |
| 17 | market that seems to me to be the direction of |
| 18 | an expert witness. Certainly if Mr. Faxon was |
| 19 | saying, well, we negotiated these agreements with |
| 20 | several publishers and excuse me, several |
| 21 | record companies, and this is what we came out |
| 22 | with, I don't think there would be any question |

| | Page 313 |
|----|--|
| 1 | that's within his expertise. But he seems to be |
| 2 | going well beyond that. |
| 3 | He does that again in paragraph 55 on |
| 4 | the same page where and this, again, is a |
| 5 | sentence that RIAA seeks to strike where he is |
| 6 | talking about what would be negotiated makes it |
| 7 | clear that the rates upon agreed upon are |
| 8 | likely to be below those that would be agreed upon |
| 9 | in a truly free market. |
| 10 | That's, to me, to be an economist |
| 11 | talking about how a free market operates, not a |
| 12 | fact witness. |
| 13 | MR. BLOCH: I think what Mr. Faxon was |
| 14 | expressing here was simply the fact that at the |
| 15 | time these contracts were negotiated, the Register |
| 16 | had not ruled on whether or not ring tones were |
| 17 | subject to 115. So from EMI's point of view, when |
| 18 | it negotiated these particular contracts, it |
| 19 | believed it was negotiating within a free market |
| 20 | because there was no limitation on what could be |
| 21 | negotiated. |
| 22 | So that is what the reference is. |

| | Page 314 |
|----|--|
| 1 | That's what was meant by this statement. |
| 2 | JUDGE ROBERTS: Okay. Let's go on a |
| 3 | little further into his testimony. I'm looking at |
| 4 | page 33, paragraph 65. Again, a sentence or a |
| 5 | provision two sentences that RIAA seeks to |
| 6 | strike. And, in particular, in the last sentence |
| 7 | it says, "Indeed, the actual free market value of |
| 8 | these compositions would be higher than the rates |
| 9 | negotiated in the NDMAs because it would not be |
| 10 | even partially constrained by the statutory rate." |
| 11 | Now, again, it's talking about the |
| 12 | actual free market value. How is Mr. Faxon |
| 13 | qualified to talk about what the free market value |
| 14 | of compositions is or is not? |
| 15 | MR. BLOCH: Some of the rates that were |
| 16 | negotiated, particularly the ring tone rates in |
| 17 | the New Digital Media Agreements which were |
| 18 | negotiated in the 2004 period once again, prior |
| 19 | to the time that ring tones were ruled to be |
| 20 | within the scope of 115 Mr. Faxon and his team |
| 21 | negotiated these rates in a market that they |
| 22 | believed to be not subject to 115, but essentially |

| | Page 315 |
|----|--|
| 1 | an open market. |
| 2 | He also believed that the rates would |
| 3 | likely have been higher because the other side to |
| 4 | these agreements was arguing that they were within |
| 5 | the scope of 115 and, thereby, constrained by 115. |
| 6 | So he is expressing his experience and his view |
| 7 | that those rates were not only negotiated in a |
| 8 | market that was largely free, but would have |
| 9 | likely been higher if there wasn't this debate or |
| 10 | dispute about whether 115 applied. |
| 11 | JUDGE ROBERTS: Isn't that exactly |
| 12 | expert opinion |
| 13 | MR. BLOCH: I don't think |
| 14 | JUDGE ROBERTS: as to what the free |
| 15 | market would support or not support? |
| 16 | MR. BLOCH: I think the inference that |
| 17 | he drew from the statement he made is based on his |
| 18 | experience of what rate he could get and what he |
| 19 | thought was a free market at the time. And it was |
| 20 | just his view that that would be higher if the |
| 21 | other side did not believe 115 applied. So I |
| 22 | think he was drawing an inference from the |

| | Page 316 |
|----|---|
| 1 | negotiations and the debate that was going on |
| 2 | between the parties. |
| 3 | And he was involved in those |
| 4 | negotiations or he was informed about those |
| 5 | negotiations, and I think he was in a position to |
| 6 | draw that inference. |
| 7 | JUDGE ROBERTS: You use the word |
| 8 | "inference." It sounds more like opinion to me. |
| 9 | MR. BLOCH: Well, Mr. Faxon's testimony |
| 10 | here today is going to relate solely to the facts |
| 11 | of those agreements, what they were, when they |
| 12 | were entered, what the rates are. And his |
| 13 | testimony will identify those facts that are |
| 14 | pertinent to this proceeding. |
| 15 | CHIEF JUDGE SLEDGE: Thank you. |
| 16 | Anything by DiMA? |
| 17 | MR. CONNOLLY: Nothing, Your Honor. |
| 18 | Thank you. |
| 19 | CHIEF JUDGE SLEDGE: Mr. Smith? |
| 20 | MR. SMITH: Nothing further, unless |
| 21 | there is a question. |
| 22 | JUDGE WISNIEWSKI: Yes, Mr. Smith. |

| | Page 317 |
|----|--|
| 1 | Wouldn't this particular motion be more |
| 2 | appropriate in a jury setting? |
| 3 | MR. SMITH: Well, Your Honor, I agree |
| 4 | with you that it would be more appropriate that |
| 5 | these kinds of evidentiary issues are more |
| 6 | sensitive and important in a jury trial, and |
| 7 | that's why I concluded my argument by saying if |
| 8 | the court feels it would be helpful, you obviously |
| 9 | are capable of evaluating the expertise of the |
| 10 | witness and differentiating between an economist |
| 11 | and a businessman. But we, as lawyers here, try |
| 12 | to enforce the rules. And so that's my answer. |
| 13 | JUDGE WISNIEWSKI: Thank you, sir. |
| 14 | CHIEF JUDGE SLEDGE: All right. Thank |
| 15 | you. We will recess and consider the motion. |
| 16 | (Recess.) |
| 17 | CHIEF JUDGE SLEDGE: Thank you. We |
| 18 | will come to order. |
| 19 | JUDGE ROBERTS: After deliberating this |
| 20 | issue, in our consideration of the RIAA motion, |
| 21 | the motion is granted in part, and the following |
| 22 | provisions of Mr. Faxon's testimony are stricken: |

| | Page 318 |
|----|---|
| 1 | On page 28, at paragraph 53, the last sentence is |
| 2 | stricken. On that same page, 28, at paragraph 55, |
| 3 | the second sentence is stricken, as is the fifth |
| 4 | sentence beginning at the bottom of page 28 and |
| 5 | going to the top of page 29. |
| 6 | On page 30, all of paragraph 59 is |
| 7 | stricken. On page 33, paragraph 65, the second |
| 8 | sentence of paragraph 65 is stricken. And on |
| 9 | page 34, the last sentence at the bottom of the |
| 10 | page is stricken. |
| 11 | The motion is denied with respect to |
| 12 | the other requests of RIAA. |
| 13 | CHIEF JUDGE SLEDGE: Mr. Bloch? |
| 14 | MR. BLOCH: Your Honor, before |
| 15 | Mr. Faxon takes the witness stand, I plan to move |
| 16 | to admit Copyright Owners' Trial Exhibit 3, which |
| 17 | would be his statement and related exhibits, |
| 18 | subject to ruling today. |
| 19 | Mr. Faxon's statement and many of the |
| 20 | exhibits contain highly confidential EMI |
| 21 | information. And I would like to move to apply |
| 22 | the protective order to certain items within this |

Page 319 1 exhibit. After the entry of the court's protective order last March, we submitted to the 2 3 court and the RIAA and DiMA a redaction log with 49 pages of EMI-specific matters listing all of 5 the places where we had designated material as restricted within the scope of the protective order. And with the court's permission, I would 8 like to hand you a copy of that log. The redactions related to Mr. Faxon's statement can be found on pages 3 and 4 of the 10 11 log. And the redactions related to Mr. Faxon's 12 exhibits can be found on pages 43 through 88, and we have highlighted the relevant section. 13 14 log is obviously much bigger than just Mr. Faxon's 15 testimony. If necessary, I am prepared to review 16 those restricted designations with the court, 17 unless the court and counsel for the RIAA and DiMA 18 have no objection. 19 MR. SMITH: Your Honor, might I inquire 20 something that Mr. Bloch --21 CHIEF JUDGE SLEDGE: No, sir. You can 22 inquire something of me.

| | Page 320 |
|----|--|
| 1 | MR. SMITH: The question I have, which |
| 2 | perhaps maybe you can ask Mr. Bloch, then, Your |
| 3 | Honor, is, are the redactions proposed here the |
| 4 | same as the ones that are marked on our copies of |
| 5 | the testimony? |
| 6 | MR. BLOCH: Yes. |
| 7 | CHIEF JUDGE SLEDGE: The answer is yes. |
| 8 | (Laughter.) |
| 9 | MR. BLOCH: I might comment that, in |
| 10 | general, this is information which is non-public |
| 11 | information. A lot of it involves royalties, |
| 12 | advances, EMI's internal financial information, |
| 13 | contracts, the terms of those contracts, things |
| 14 | that would not be publicly disclosed which, within |
| 15 | the scope of the court's order, would |
| 16 | competitively disadvantage EMI or competitively |
| 17 | advantage one of its competitors. |
| 18 | CHIEF JUDGE SLEDGE: Mr. Bloch, you |
| 19 | suffer from the disability of having followed two |
| 20 | proceedings where attorneys have recited that |
| 21 | script with very little concern of what they're |
| 22 | saying. |

| | Page 321 |
|----|--|
| 1 | JUDGE WISNIEWSKI: Mr. Bloch, are all |
| 2 | the agreements referred to here currently |
| 3 | operating agreements? |
| 4 | MR. BLOCH: Yes. Well, I should say |
| 5 | the New Digital Media Agreements are all in |
| 6 | effect. Skype, SpiralFrog is in effect. A number |
| 7 | of the Ring Tone agreements may have expired |
| 8 | because they have various terms. But there are 59 |
| 9 | of those agreements, and they expire at different |
| 10 | times. |
| 11 | JUDGE WISNIEWSKI: I am particularly |
| 12 | concerned about the Ring Tone agreements because |
| 13 | they don't carry any dates in most cases. |
| 14 | MR. BLOCH: I can help the court in |
| 15 | that respect. There will be a Exhibit 18 to |
| 16 | Mr. Faxon's statement and we will provide the |
| 17 | court with that right now has a chart |
| 18 | summarizing all the Ring Tone agreements as well |
| 19 | as the agreements themselves. |
| 20 | And the dates the effective dates |
| 21 | began in September of '01, and the last one listed |
| 22 | was June of 2006 when they begin. Some of them go |

| | Page 322 |
|----|---|
| 1 | into '07. A number of them have expired |
| 2 | previously. |
| 3 | But the terms are listed as well, and |
| 4 | those terms run from 2001 through as late as June |
| 5 | 2007. |
| 6 | CHIEF JUDGE SLEDGE: And where can |
| 7 | we look at what you're looking |
| 8 | MR. BLOCH: Exhibit 18. It's Copyright |
| 9 | Owners' 218. |
| 10 | JUDGE ROBERTS: Let me ask you this, |
| 11 | Mr. Bloch. I just happened to open to one of |
| 12 | these Ring Tone license agreements. This is |
| 13 | toward the front of Exhibit 218. This is the |
| 14 | agreement between Warner Strategic Marketing and |
| 15 | EMI. And according to this, this contract began |
| 16 | on January 1, 2002, and terminated on October 29, |
| 17 | 2005. And my question to you is, since it has |
| 18 | been more than two years now that this agreement |
| 19 | has been expired, for what reason would we be |
| 20 | protecting confidentiality? |
| 21 | MR. BLOCH: Well, the terms of these |
| 22 | agreements they were all negotiated, of course, |

| | Page 323 |
|----|--|
| 1 | privately. And EMI is continuously negotiating |
| 2 | with different people for these types of |
| 3 | agreements, including some of the same parties, |
| 4 | some of their competitors directly. And so EMI is |
| 5 | very concerned about not having the terms of these |
| 6 | agreements made public in a way so that when they |
| 7 | negotiate with competitors, competitors of the |
| 8 | people involved here, so that they see all of the |
| 9 | details and the financial arrangements that are |
| 10 | involved. |
| 11 | These agreements are usually negotiated |
| 12 | at arm's length between the parties directly, and |
| 13 | it would just disadvantage EMI in terms of its |
| 14 | strategy, its thinking, financial considerations |
| 15 | that it gives between one party that it negotiates |
| 16 | and what its strategy may be with others if all of |
| 17 | these agreements were made public. |
| 18 | JUDGE ROBERTS: I understand for an |
| 19 | active agreement you're concerned. But for one |
| 20 | that is now more than two years old, if someone |
| 21 | looked at this, what would they get out of it? |
| 22 | They would know how EMI negotiated during this |

| | Page 324 |
|----|---|
| 1 | period, but they wouldn't know what the terms are |
| 2 | of current agreements, the rates or any of the |
| 3 | provisions set forth. This agreement wouldn't |
| 4 | tell you that. |
| 5 | MR. BLOCH: Well, certainly on expired |
| 6 | agreements that's true, but I know that this |
| 7 | information is proprietary to EMI, and they are |
| 8 | very, very concerned about how it can affect the |
| 9 | knowledge that people in the marketplace have. |
| 10 | JUDGE ROBERTS: And I appreciate their |
| 11 | concern, but what I am asking you is if their |
| 12 | concern is justified. For an expired agreement, |
| 13 | what in this agreement would be so sensitive that |
| 14 | EMI would need this protected and not revealed to |
| 15 | the world if it's more than two years old? It |
| 16 | doesn't seem that it's going to tell anybody what |
| 17 | the current license agreements that EMI has |
| 18 | what terms and conditions those agreements have. |
| 19 | MR. BLOCH: My understanding, Your |
| 20 | Honor, is that when these agreements are |
| 21 | negotiated, they're obviously negotiated with the |
| 22 | understanding that they be confidential and that |

| | Page 325 |
|----|--|
| 1 | the terms are confidential and that they will not |
| 2 | be made public. So even though this agreement has |
| 3 | expired, it doesn't mean it would not be of value |
| 4 | to competitors that would get their hands on these |
| 5 | documents and see them. |
| 6 | JUDGE ROBERTS: How long does that |
| 7 | continue? If we're doing the next rate adjustment |
| 8 | proceeding five years from now and we're looking |
| 9 | at this, does that still apply then? |
| 10 | MR. BLOCH: Probably not. |
| 11 | JUDGE ROBERTS: Well, I don't |
| 12 | understand, then what's the cutoff period here? |
| 13 | MR. BLOCH: Well, I don't know that |
| 14 | there is any magical date. I think the simple |
| 15 | fact is that the parties negotiated these things |
| 16 | with the understanding that they were |
| 17 | confidential. I don't know that they obviously |
| 18 | had any sense there would be a rate proceeding at |
| 19 | which they would be considered. |
| 20 | But I think they well, I know they |
| 21 | feel very, very strongly about the financial |
| 22 | information involved, the terms involved and how |

| | Page 326 |
|----|--|
| 1 | they negotiate, what their strategy is and the |
| 2 | degree and extent to which these agreements reveal |
| 3 | that strategy. |
| 4 | JUDGE ROBERTS: It sounds to me, then, |
| 5 | that they would like it protected forever. |
| 6 | MR. BLOCH: Well, yes, if they had |
| 7 | their druthers, they would. |
| 8 | JUDGE WISNIEWSKI: Mr. Bloch, you say |
| 9 | that the parties have, in fact, negotiated a |
| 10 | confidentiality provision in these agreements. If |
| 11 | the agreements expire, doesn't that provision |
| 12 | expire? |
| 13 | MR. BLOCH: Technically, that's |
| 14 | correct. But as much as anything, these |
| 15 | agreements embody, I think, the negotiating |
| 16 | strategy of the parties and what their thinking |
| 17 | was about the terms and what they should be. And |
| 18 | that is as important to them as the actual |
| 19 | pendency of the agreement. |
| 20 | CHIEF JUDGE SLEDGE: Mr. Smith? |
| 21 | MR. SMITH: Your Honor, my only comment |
| 22 | about this is that I think we're taking this |

| | Page 327 |
|----|--|
| 1 | slightly out of two comments. First of all, I |
| 2 | think we're doing it a little out of order |
| 3 | because, as I understand it, the exhibit hasn't |
| 4 | been offered into evidence yet. And there are a |
| 5 | couple of pieces of it that he is seeking to be |
| 6 | subject to a protective order where I am going to |
| 7 | have an objection to the whole document on hearsay |
| 8 | and other grounds, specifically 225 and 226. |
| 9 | The other thing is I support, with |
| 10 | respect to the NDMAs, which involve current |
| 11 | agreements involving major record companies, |
| 12 | protecting the protection the specific pieces |
| 13 | of it that he has designated. That is a very |
| 14 | sensitive matter among the record companies, that |
| 15 | they don't all know the terms of the various |
| 16 | NDMAs. So that's a matter that ought to be kept |
| 17 | restricted on those three documents, which I |
| 18 | believe is 219, 220 and 221. |
| 19 | MR. BLOCH: Your Honor, if I may |
| 20 | CHIEF JUDGE SLEDGE: Just a moment. |
| 21 | Mr. Connolly? |
| 22 | MR. CONNOLLY: I have nothing further |

| | Page 328 |
|----|--|
| 1 | to add on the subject. |
| 2 | CHIEF JUDGE SLEDGE: Mr. Bloch? |
| 3 | MR. BLOCH: Judge Roberts, the |
| 4 | agreement you referenced is a confidentiality |
| 5 | agreement 218, the statement. |
| 6 | CHIEF JUDGE SLEDGE: All right. |
| 7 | Consideration of this motion conveniently fits |
| 8 | within a mid-morning break. We will recess |
| 9 | ten minutes. |
| 10 | (Recess.) |
| 11 | CHIEF JUDGE SLEDGE: Thank you. We |
| 12 | will return to order. |
| 13 | The motion to apply the protective |
| 14 | order is granted only for all current data and all |
| 15 | current agreements. The motion is denied for all |
| 16 | expired agreements and all data for periods of |
| 17 | time that do not include the present, and the |
| 18 | movant is directed to file an updated chart |
| 19 | tomorrow to update the two parts that are attached |
| 20 | that give the portions of the statement that are |
| 21 | redacted and the portions of the exhibits that are |
| 22 | redacted, to update that to comply with this |

| | Page 329 |
|----|---|
| 1 | standard so that we will know exactly what |
| 2 | portions of the statement and the exhibits are |
| 3 | subject to the protective order and what portions |
| 4 | are not. |
| 5 | MR. COHEN: Your Honor, may I just ask |
| 6 | for a clarification just so that, going forward, |
| 7 | we do this in an orderly way. With respect to the |
| 8 | agreements, I fully understand the court's |
| 9 | direction. We will redesignate on the basis of |
| 10 | today's direction. |
| 11 | With respect to financial data and I |
| 12 | assume we have a shared interest with our friends |
| 13 | at the other table are we saying that if data |
| 14 | is internal non-public data for 2005 and 2006, |
| 15 | that that's not public? Because I think it is a |
| 16 | different issue, respectfully, than with respect |
| 17 | to expired agreements. Each of our clients |
| 18 | CHIEF JUDGE SLEDGE: We are saying |
| 19 | that, that is not current data. |
| 20 | MR. COHEN: So that all internal |
| 21 | financial data prior to we have no current |
| 22 | data. The most recent data that's been supplied |

| | Page 330 |
|----|--|
| 1 | on each side is either 2005 or 2006 data. |
| 2 | CHIEF JUDGE SLEDGE: That would not be |
| 3 | current. |
| 4 | MR. COHEN: Then I guess I am |
| 5 | respectfully suggesting, Your Honor, by way of |
| 6 | reargument, if I may, that with |
| 7 | CHIEF JUDGE SLEDGE: Thank you. We |
| 8 | have already heard that. |
| 9 | MR. COHEN: Yes, sir. |
| 10 | CHIEF JUDGE SLEDGE: And as part of the |
| 11 | decision, the presentation of the parties' |
| 12 | expectations, it must be considered that that is |
| 13 | only one-half of the equation. The other half of |
| 14 | the equation is the public's right to know. The |
| 15 | public is entitled to know and understand what |
| 16 | decisions our courts make, and the public is |
| 17 | entitled, in understanding those decisions, what |
| 18 | the facts are that support the decisions, and the |
| 19 | public is entitled, therefore, to review all facts |
| 20 | that are considered in a decision other than those |
| 21 | facts that strictly fit within the statutory |
| 22 | standards correction the common law |

| | Page 331 |
|----|--|
| 1 | standards of what is permitted to be restricted |
| 2 | from the public. |
| 3 | MR. BLOCH: Your Honor, with regard to |
| 4 | Mr. Faxon's testimony about matters that are |
| 5 | subject to the protective order, pursuant to |
| 6 | paragraph 8 of that protective order, can I |
| 7 | request that the courtroom be closed at the time |
| 8 | that testimony is given? |
| 9 | CHIEF JUDGE SLEDGE: We will consider |
| 10 | that timely. |
| 11 | MR. BLOCH: With that, I think we will |
| 12 | hear from Mr. Faxon. |
| 13 | Whereupon, |
| 14 | ROGER FAXON, |
| 15 | called for examination by counsel, and having been |
| 16 | sworn by the Chief Judge, was examined and |
| 17 | testified as follows: |
| 18 | CHIEF JUDGE SLEDGE: Thank you. Be |
| 19 | seated. |
| 20 | DIRECT EXAMINATION |
| 21 | BY MR. BLOCH: |
| 22 | Q. Please state your name and business |

| | Page 332 |
|----|---|
| 1 | address. |
| 2 | A. My name is Roger Faxon. And my |
| 3 | business is located at 75 9th Avenue in New York |
| 4 | City. |
| 5 | Q. By whom are you employed? |
| 6 | A. I am directly employed by EMI Music |
| 7 | Publishing and which is a division of EMI |
| 8 | Group, Limited. |
| 9 | Q. What is your title and position, your |
| 10 | current title? |
| 11 | A. My current title is chairman and chief |
| 12 | executive officer of EMI Music Publishing. |
| 13 | Q. Did you submit a written statement in |
| 14 | this proceeding in November 2006? |
| 15 | A. I did. |
| 16 | MR. BLOCH: With the court's |
| 17 | permission, I would like the witness to receive a |
| 18 | copy of what has been marked as Trial Exhibit 3. |
| 19 | BY MR. BLOCH: |
| 20 | Q. Mr. Faxon, if you would look at that |
| 21 | document. Can you tell us what that is, please? |
| 22 | A. Yes. This is the written statement |

| | Page 333 |
|----|--|
| 1 | that I prepared in connection with these |
| 2 | proceedings. |
| 3 | Q. Please turn to the last page of that |
| 4 | statement and tell us if that's your signature. |
| 5 | A. Yes. That scrawl belongs to me. |
| 6 | Q. Is this the written statement that you |
| 7 | submitted in these proceedings, together with the |
| 8 | exhibits that are referenced therein? |
| 9 | A. It is. |
| 10 | MR. BLOCH: With the court's |
| 11 | permission, I move Trial Exhibit 3. |
| 12 | CHIEF JUDGE SLEDGE: Mr. Smith? |
| 13 | MR. SMITH: Your Honor, I have two |
| 14 | categories of objections to raise. One goes to |
| 15 | the various portions of the statement itself which |
| 16 | are hearsay and otherwise inadmissible. And I can |
| 17 | read those. The other goes to those two exhibits |
| 18 | I mentioned before, 225 and 226. Should I start |
| 19 | going through those, then, at this point, Your |
| 20 | Honor? The first one |
| 21 | CHIEF JUDGE SLEDGE: I don't want to |
| 22 | encourage you. |

| | Page 334 |
|----|--|
| 1 | (Laughter.) |
| 2 | MR. SMITH: With respect to the text of |
| 3 | the document, what you see this is the |
| 4 | statement. What you see here is a variety of |
| 5 | places in which Mr. Faxon is basically reporting |
| 6 | what he read in the newspaper and or in a |
| 7 | magazine or in some analyst report somewhere. |
| 8 | They have previously included the |
| 9 | newspaper articles and the magazine articles and |
| 10 | the analyst reports as exhibits that were proposed |
| 11 | to be admitted in evidence. We learned recently |
| 12 | that they don't intend to offer those hearsay |
| 13 | documents into evidence, but we have now |
| 14 | essentially the relic of that, which is his |
| 15 | paraphrase of these various articles and reports |
| 16 | and clippings of various sorts. |
| 17 | The first example is paragraph 32 of |
| 18 | his testimony, all of which is him paraphrasing an |
| 19 | article in Billboard Magazine, which was |
| 20 | previously Exhibit 7 but which they're now not |
| 21 | offering into evidence. |
| 22 | A similar problem arises with respect |

| | Page 335 |
|----|---|
| 1 | to paragraph 33 in a different article. |
| 2 | Paragraph 33 was to be based on Exhibit 8, but he |
| 3 | is not offering that in evidence either. So we |
| 4 | have, instead, him telling us what the article |
| 5 | would say. |
| 6 | CHIEF JUDGE SLEDGE: All right. Any |
| 7 | response to the objections to paragraphs 32 and |
| 8 | 33? |
| 9 | MR. BLOCH: Your Honor, we're not |
| 10 | offering those exhibits because we don't think |
| 11 | they're necessary at the moment for Mr. Faxon's |
| 12 | testimony. We think his written statement, |
| 13 | though, and his summary of those, of which he has |
| 14 | some personal knowledge as well, are perfectly |
| 15 | appropriate to remain in the statement. |
| 16 | CHIEF JUDGE SLEDGE: All right. The |
| 17 | objections to paragraphs 32 and 33 are granted. |
| 18 | Sustained. |
| 19 | MR. SMITH: Your Honor, my next |
| 20 | objection goes to paragraph 35 where we have |
| 21 | estimates of the future growth of the digital |
| 22 | marketplace industry-wide, global, wholesale |

| | Page 336 |
|----|--|
| 1 | revenues from digital distribution, which is |
| 2 | attributed to what used to be Exhibit 9 no |
| 3 | longer being offered which is apparently some |
| 4 | kind of estimates which come from Morgan Stanley |
| 5 | about the market, again, based on a hearsay |
| 6 | document which is no longer being presented to the |
| 7 | court. |
| 8 | MR. BLOCH: May I respond to that? |
| 9 | Your Honor, Mr. Faxon will testify that in all of |
| 10 | his executive capacities, he routinely, as a |
| 11 | matter of course, with regard to his daily |
| 12 | business, stays on top of activity that is going |
| 13 | on in the market. He reads analyst reports. He |
| 14 | reads reports like the Morgan Stanley report |
| 15 | projecting forecasts and other documents of that |
| 16 | sort. |
| 17 | It is a standard fare for his duties |
| 18 | and responsibilities as an executive to stay in |
| 19 | touch with what's going on in that market. He |
| 20 | uses that together with other inputs in making |
| 21 | business decisions and staying informed in order |
| 22 | to evaluate what's going on and form a strategy |

| | Page 337 |
|----|--|
| 1 | and making decisions within the company. |
| 2 | I think this is perfectly regular |
| 3 | activity, and this kind of report and his comments |
| 4 | about it in his statement are perfectly compatible |
| 5 | with the rules of evidence. And he will testify |
| 6 | as to the bases upon which he makes his business |
| 7 | decisions and the kinds of information and inputs |
| 8 | that he uses. The fact that it's not being |
| 9 | offered into evidence doesn't mean that it is |
| 10 | inadmissible in this statement. We just chose not |
| 11 | to use it as part of his testimony. |
| 12 | CHIEF JUDGE SLEDGE: I would expect |
| 13 | that when there's that the rules of evidence |
| 14 | permit a summary of an exhibit, but upon |
| 15 | objection, that the exhibit must be admitted |
| 16 | before the summary is admitted. Is that not |
| 17 | correct? |
| 18 | MR. BLOCH: Yes. The underlying |
| 19 | well, the underlying documents upon which a |
| 20 | summary is based must be made available to the |
| 21 | other side, and they must be authenticated, yes. |
| 22 | CHIEF JUDGE SLEDGE: So why doesn't |

| | Page 338 |
|----|--|
| 1 | that support the objection? |
| 2 | MR. BLOCH: Well, ordinary business |
| 3 | reports are public records, and analyst reports |
| 4 | are used all the time by business executives in |
| 5 | evaluating information to make business decisions, |
| 6 | aside from other inputs. |
| 7 | CHIEF JUDGE SLEDGE: That's not the |
| 8 | basis of the objection. The objection, as I |
| 9 | understand it, is not that he read this and does |
| 10 | that as part of his daily work. The objection is |
| 11 | that he is giving information from an exhibit |
| 12 | that's not being offered. |
| 13 | MR. BLOCH: Well, I think he is able to |
| 14 | express his opinions in paragraph 34 is it |
| 15 | paragraph 33? |
| 16 | CHIEF JUDGE SLEDGE: Paragraph 35 is |
| 17 | what we are on. |
| 18 | MR. BLOCH: The estimates that he's |
| 19 | giving here on Exhibit 9 were not only from EMI |
| 20 | Music Publishing, but also Morgan Stanley. So are |
| 21 | you objecting to the Morgan Stanley piece of it or |
| 22 | are you objecting to the EMI piece of it? |

| | Page 339 |
|----|---|
| 1 | CHIEF JUDGE SLEDGE: The objection is |
| 2 | that the supporting document for this information |
| 3 | is not being offered. |
| 4 | MR. SMITH: And that the whole |
| 5 | paragraph is hearsay in any event, Your Honor. |
| 6 | MR. BLOCH: Well, to the extent that it |
| 7 | relies on EMI Music Publishing data |
| 8 | CHIEF JUDGE SLEDGE: You're wrong on |
| 9 | that, Mr. Smith. The first sentence is not |
| 10 | hearsay. |
| 11 | MR. SMITH: I stand corrected, Your |
| 12 | Honor. The rest of the paragraph. |
| 13 | MR. BLOCH: Excuse me, Your Honor. May |
| 14 | I approach? |
| 15 | JUDGE WISNIEWSKI: What's your basis |
| 16 | for stating that, Mr. Smith? |
| 17 | MR. SMITH: Reporting estimates of |
| 18 | global wholesale revenues that was done by |
| 19 | somebody else, which he then reads and tells the |
| 20 | court about. I can't cross-examine the person who |
| 21 | did the estimates because it's not Mr. Faxon. |
| 22 | JUDGE WISNIEWSKI: And who is it that |

| | Page 340 |
|----|--|
| 1 | did these estimate? |
| 2 | MR. SMITH: It's some unexplained |
| 3 | combination of somebody else at EMI Music |
| 4 | Publishing and somebody at Morgan Stanley. If we |
| 5 | see Exhibit 9, it doesn't actually tell you what |
| 6 | numbers came from which of those places. But in |
| 7 | no case is it apparently Mr. Faxon. |
| 8 | MR. BLOCH: I would also point out to |
| 9 | the court, if I might, under 351.1 that this court |
| 10 | may consider hearsay evidence to the extent that |
| 11 | it is deemed appropriate and useful by the court. |
| 12 | CHIEF JUDGE SLEDGE: Go ahead, |
| 13 | Mr. Smith. |
| 14 | MR. SMITH: Your Honor, my next |
| 15 | objection relates to paragraph 50, starting with |
| 16 | the second sentence, continuing through the third |
| 17 | sentence and through the citation to the Time |
| 18 | Magazine article. We have here assertions about |
| 19 | what kind of profits are made by the Apple |
| 20 | Corporation based on a Time Magazine article. |
| 21 | CHIEF JUDGE SLEDGE: Mr. Bloch? |
| 22 | MR. BLOCH: Again, Your Honor, only one |

| | Page 341 |
|----|---|
| 1 | segment of that refers to the article, which is a |
| 2 | public article, and I would refer the court back |
| 3 | again to rule 351.10. This is in the public |
| 4 | domain, and the court can take notice of this and |
| 5 | consider it in the course of its deliberations. |
| 6 | CHIEF JUDGE SLEDGE: Mr. Connolly? |
| 7 | MR. CONNOLLY: Your Honor, I've done my |
| 8 | best to remain silent today, but I wanted to add |
| 9 | my voice to an objection to this particular |
| 10 | paragraph that's in addition to Mr. Smith, which |
| 11 | is the middle sentence there is argumentative. |
| 12 | And if a witness had testified to this in federal |
| 13 | court and suggested that Apple artificially holds |
| 14 | down the price |
| 15 | CHIEF JUDGE SLEDGE: Which federal |
| 16 | court are you referring to? |
| 17 | MR. CONNOLLY: Your Honor, I'm just |
| 18 | saying if it was live testimony rather than |
| 19 | written testimony, that the motion would be to |
| 20 | strike the testimony as argumentative, but of |
| 21 | course we don't have that opportunity when it's |
| 22 | written testimony. But that clearly is an |

| | Page 342 |
|----|--|
| 1 | argumentative |
| 2 | CHIEF JUDGE SLEDGE: Why don't you have |
| 3 | that opportunity? |
| 4 | MR. CONNOLLY: Well, I can take the |
| 5 | opportunity now, Your Honor. I'm sorry. The |
| 6 | point is that in addition to being based on |
| 7 | hearsay, it is also argumentative and suggests |
| 8 | another reason that it should be struck. |
| 9 | CHIEF JUDGE SLEDGE: The objection to |
| 10 | paragraph 50 is overruled. |
| 11 | MR. SMITH: Your Honor, my next |
| 12 | objection is to paragraph 51 which reports various |
| 13 | information about a transaction between Microsoft |
| 14 | and Universal Music, apparently based on an |
| 15 | article from the New York Times. |
| 16 | CHIEF JUDGE SLEDGE: Is that it? |
| 17 | MR. SMITH: It's a hearsay objection to |
| 18 | that, Your Honor. |
| 19 | CHIEF JUDGE SLEDGE: Objection to 51 is |
| 20 | overruled. |
| 21 | MR. SMITH: The next objection, Your |
| 22 | Honor, is to 52 in which we have information here |

| | Page 343 |
|----|--|
| 1 | about YouTube's revenues Google's acquisition |
| 2 | of YouTube as to which there is no information at |
| 3 | all about where Mr. Faxon obtained the knowledge |
| 4 | of that transaction. |
| 5 | CHIEF JUDGE SLEDGE: Objection to 52 is |
| 6 | overruled. |
| 7 | MR. SMITH: The final matter, Your |
| 8 | Honor, involves both testimony starting on page 40 |
| 9 | and continuing on to page 41 and the related |
| 10 | exhibits, which are CO 225 and 226. This involves |
| 11 | two reports that were generated at EMI detailing |
| 12 | various information about the alleged shortfall in |
| 13 | royalty payments made to EMI Music Publishing by |
| 14 | record companies. The two the two exhibits are |
| 15 | worth looking at. If you would look at them in |
| 16 | your binders, I would appreciate it. |
| 17 | The first one, 225, contains a long |
| 18 | series of pages making various accusations of |
| 19 | nonpayment and other problems with the payment of |
| 20 | royalties from a whole variety of companies |
| 21 | involving a whole variety of agreements. |
| 22 | Clearly essentially what he is doing here is |

| | Page 344 |
|-----|--|
| 1 | having somebody else provide a lot of testimony on |
| 2 | a document that somebody else put together, and so |
| . 3 | I think that it's very difficult to cross-examine |
| 4 | somebody on somebody else's testimony. It's |
| 5 | hearsay in that sense. |
| 6 | Now, with respect to 226, I have |
| 7 | CHIEF JUDGE SLEDGE: I'm sorry. |
| 8 | MR. SMITH: I'm sorry. We will take |
| 9 | them one at a time. |
| 10 | CHIEF JUDGE SLEDGE: Is all of this in |
| 11 | the information or not? I mean, is this |
| 12 | information contained in the agreement or not? |
| 13 | MR. SMITH: This is not summaries of |
| 14 | the agreement, Your Honor. This is summaries of |
| 15 | various aspects of the administration of various |
| 16 | agreements, which is to say what kind of report |
| 17 | was laid, what tracking report was laid, when |
| 18 | money was received, when it should have been |
| 19 | received, a whole series of factual assertions |
| 20 | about problems that justify their proposed late |
| 21 | fees and other terms. |
| 22 | MR. BLOCH: Your Honor, may I comment? |

| | Page 345 |
|----|---|
| 1 | CHIEF JUDGE SLEDGE: Is the answer to |
| 2 | my question it is not in the agreement? |
| 3 | MR. SMITH: The first column is the |
| 4 | agreement, Your Honor. It's the other columns |
| 5 | which contain various assertions of fact about |
| 6 | problems in the administration of the agreements. |
| 7 | CHIEF JUDGE SLEDGE: And, therefore, it |
| 8 | is not in the agreement? |
| 9 | MR. SMITH: Correct. |
| 10 | CHIEF JUDGE SLEDGE: Thank you. |
| 11 | JUDGE ROBERTS: So what you're saying, |
| 12 | Mr. Smith, is Mr. Faxon is not capable of |
| 13 | answering questions with respect to reporting |
| 14 | issues, tracking issues, additional proposed |
| 15 | enhancements? |
| 16 | MR. SMITH: My concern is if I ask him |
| 17 | a question about this document, he is going to |
| 18 | say, well, I just had somebody go out and get me |
| 19 | this information. I didn't compile this |
| 20 | information. I don't have any personal knowledge |
| 21 | about this. |
| 22 | So how can I cross-examine him about |

| | Page 346 |
|----|--|
| 1 | that? |
| 2 | MR. BLOCH: May I respond, Your Honor? |
| 3 | CHIEF JUDGE SLEDGE: Yes, sir. |
| 4 | MR. BLOCH: Exhibits 225 and 226 are |
| 5 | internally |
| 6 | CHIEF JUDGE SLEDGE: We're doing 225 |
| 7 | now. |
| 8 | MR. BLOCH: All right. 225 is an |
| 9 | internal business record that was made in the |
| 10 | regular course of EMI's business activity, |
| 11 | specifically the monitoring of the NDMA |
| 12 | agreements. There were agreements with Sony BMG. |
| 13 | There was an agreement with Universal and an |
| 14 | agreement with Warner. And internally within |
| 15 | EMI Mr. Faxon will testify that EMI people were |
| 16 | involved with those agreements in the regular |
| 17 | course of their business, kept track of the |
| 18 | activity going on. |
| 19 | And this document will show, among |
| 20 | other things, that the companies were not making |
| 21 | timely payments of royalties pursuant to those |
| 22 | agreements. As the executive of the company, he |

| | Page 347 |
|----|--|
| 1 | received such reports about that activity which |
| 2 | are reflected in these documents. So he can |
| 3 | authenticate the document as a business record and |
| 4 | testify about them. |
| 5 | CHIEF JUDGE SLEDGE: What rule was |
| 6 | that? |
| 7 | MR. BLOCH: 8036. |
| 8 | CHIEF JUDGE SLEDGE: Mr. Smith, |
| 9 | anything further? |
| 10 | MR. SMITH: My concern about that |
| 11 | argument, Your Honor, is that there isn't any |
| 12 | testimony in the written direct testimony that |
| 13 | this is a business record, that it's prepared in |
| 14 | the ordinary course of business. It's dated just |
| 15 | a few weeks before the testimony was filed, and it |
| 16 | would certainly appear to me that this was |
| 17 | something prepared for purposes of this |
| 18 | proceeding, which makes it hearsay and not a |
| 19 | business record. |
| 20 | And certainly the fact that Mr. Faxon |
| 21 | can say something in this court about an exhibit |
| 22 | is a violation of the rules. What the rules say |

| | Page 348 |
|----|--|
| 1 | is you have to refer to it in your direct |
| 2 | testimony in order to substantiate the exhibits |
| 3 | that you're sponsoring. |
| 4 | CHIEF JUDGE SLEDGE: All right. Go on |
| 5 | to Exhibit 226. |
| 6 | MR. SMITH: There is an additional |
| 7 | 226 is another analysis of royalty nonpayments. |
| 8 | It has an additional problem that it is |
| 9 | essentially an analysis or a calculation. They |
| 10 | the person who authored this document, |
| 11 | Mr. McVeedy, apparently applied some methodology |
| 12 | to come up with an estimate of what they should |
| 13 | have been paid using some source of information |
| 14 | about sales of downloads, and then compared that |
| 15 | estimate, which we don't know how he did it, to |
| 16 | what they had actually been paid. |
| 17 | So in addition to having similar |
| 18 | problems of hearsay, this is a violation, we would |
| 19 | argue, of section 351.10(e) which says this is |
| 20 | the regulation. It says, Introduction of studies |
| 21 | and analyses. If studies or analyses are offered |
| 22 | into evidence, they should state fully the study |

| | Page 349 |
|----|--|
| 1 | plan, the principles and methods underlying the |
| 2 | study, the relevant assumptions, where the facts |
| 3 | came from, et cetera. |
| 4 | We have a document that asserts that |
| 5 | there's millions of dollars that weren't paid that |
| 6 | should have been paid based on some expectations |
| 7 | derived from some data which we don't know what it |
| 8 | was. |
| 9 | MR. BLOCH: May I respond? Once again, |
| 10 | Your Honor, just to be clear, these documents are |
| 11 | both referenced, 225 and 226, in paragraphs 76 and |
| 12 | 77 in Mr. Faxon's statement, so he has |
| 13 | specifically provided testimony about them. |
| 14 | With regard to 226, this is also a |
| 15 | business record admissible for the same reason |
| 16 | under 8036. It's made in the regular course of |
| 17 | business. It was directed to Mr. Faxon and |
| 18 | others. It does concern a shortfall and failure |
| 19 | to pay, and Mr. Faxon can authenticate this |
| 20 | document and will tell the court that this is |
| 21 | prepared on a quarterly basis in the regular |
| 22 | course of EMI's business. |

| | Page 350 |
|----|--|
| 1 | And it also seems to me that these |
| 2 | objections cross-examination is perfectly |
| 3 | appropriate on them if there are these issues that |
| 4 | Mr. Smith is concerned about. |
| 5 | CHIEF JUDGE SLEDGE: All right. |
| 6 | Mr. Smith, please take the podium, and ask any |
| 7 | voir dire that you wish on these two exhibits. |
| 8 | VOIR DIRE |
| 9 | BY MR. SMITH: |
| 10 | Q. Good morning, Mr. Faxon. Paul Smith |
| 11 | for the RIAA. Could I ask you to turn to |
| 12 | Exhibit 226 in your binder there? |
| 13 | A. 226? |
| 14 | Q. Yes, sir. |
| 15 | A. Yes. |
| 16 | Q. And I wonder if you could tell us what |
| 17 | a shortfall analysis is. |
| 18 | A. Shortfall analysis is as you explained |
| 19 | it a moment ago. It is the it is a what we |
| 20 | would call a tracking report to determine how much |
| 21 | monies that should have been paid to us were not |
| 22 | paid to us on behalf of our songwriters. |

| | Page 351 |
|----|--|
| 1 | Q. And are you personally familiar with |
| 2 | the methodology that was used to come up with the |
| 3 | shortfall, the expectation? |
| 4 | A. Yes. In fact, I designed it. So your |
| 5 | assertion earlier that I would not be able to |
| 6 | testify to it is not really valid since I designed |
| 7 | the methodology. |
| 8 | Q. And is it true that document 226 is |
| 9 | prepared in the ordinary course of business for |
| 10 | EMI? |
| 11 | A. It is. If you would like an update of |
| 12 | it, I have one in my bag. It comes out quarterly. |
| 13 | Q. Is the same true with respect to |
| 14 | Exhibit 225? |
| 15 | A. No. 225 was put together for on a |
| 16 | different basis. It was to allow us to structure |
| 17 | a tracking process for the NDMAs which, as you |
| 18 | know, are fairly complex agreements, and that they |
| 19 | required and we did not believe that we were |
| 20 | being reported to appropriately. So we had the |
| 21 | staff I had the staff go and analyze exactly |
| 22 | what should the process be to make an estimate of |

| | Page 352 |
|----|--|
| 1 | what the shortfalls related to that we were |
| 2 | experiencing as of that date, and to try and set |
| 3 | out how to then proceed to improve the collections |
| 4 | that were required under the agreements. |
| 5 | Q. And do you have personal knowledge of |
| 6 | how they went about gathering this information? |
| 7 | A. Yes, I do. |
| 8 | Q. How do you have that knowledge? |
| 9 | A. Well, I'm a pretty hands-on executive, |
| 10 | so especially when we're dealing with |
| 11 | documents with agreements as important as these |
| 12 | that set the precedent for the way in which we |
| 13 | will collect and manage the affairs of our |
| 14 | songwriters going forward in the digital age. So |
| 15 | I'm very much involved in understanding and |
| 16 | monitoring how it works. |
| 17 | Q. And it's your testimony that 225 was |
| 18 | not prepared for purposes of presentation in this |
| 19 | court? |
| 20 | A. Yes, that is absolutely my testimony. |
| 21 | It was in the ordinary course. With contracts as |
| 22 | important as these, you need to build an |

| | Page 353 |
|----|--|
| 1 | appropriate way of monitoring them and tracking |
| 2 | the receipts. |
| 3 | MR. SMITH: Your Honor, it's still my |
| 4 | position that that's the testimony that should |
| 5 | have been in the written direct statement. But if |
| 6 | you're going to have apparently allowed him to |
| 7 | supplement that by answering here, I will withdraw |
| 8 | my objection. I think that establishes a basis if |
| 9 | you think it's timely. |
| 10 | CHIEF JUDGE SLEDGE: Is that for both |
| 11 | 225 and 226? |
| 12 | MR. SMITH: Yes, sir. |
| 13 | MR. BLOCH: Your Honor, that is |
| 14 | CHIEF JUDGE SLEDGE: All right. That |
| 15 | leaves, I believe, only the objection to |
| 16 | paragraph 35. |
| 17 | With the provision in paragraph 35 that |
| 18 | the information is according to estimates from |
| 19 | EMI, the objection to 35 is overruled. And that |
| 20 | then leaves us with the results of the motion in |
| 21 | limine, and the exhibit is admitted with the |
| 22 | rulings on the objections subject to the |

| | Page 354 |
|----|--|
| 1 | rulings on the objections. |
| 2 | MR. BLOCH: May I proceed, Your Honor? |
| 3 | CHIEF JUDGE SLEDGE: Yes, sir. |
| 4 | FURTHER DIRECT EXAMINATION |
| 5 | BY MR. SMITH: |
| 6 | Q. Mr. Faxon, let's talk a little bit |
| 7 | about your background and experience. Can you |
| 8 | please describe your education after high school, |
| 9 | please? |
| 10 | A. I attended Johns Hopkins University and |
| 11 | received a degree in political economy and |
| 12 | international relations. |
| 13 | Q. After graduating from college, what did |
| 14 | you do? |
| 15 | A. I worked in a family business for |
| 16 | several years, and then I went into government |
| 17 | service. Most especially, I was among the |
| 18 | earliest staff members of the Congressional Budget |
| 19 | Office where I was responsible for budget analysis |
| 20 | with respect to government finance and housing and |
| 21 | community development. I then proceeded to become |
| 22 | chief of the professional staff of the |

| | Page 355 |
|----|--|
| 1 | Subcommittee on Housing and Urban Development in |
| 2 | the U.S. House of Representatives. |
| 3 | Q. After your government service, did you |
| 4 | join the private sector? |
| 5 | A. I did. I made a left turn, I suppose. |
| 6 | I became chief operating officer of Lucasfilm |
| 7 | which is George Lucas' company, where I ran all of |
| 8 | his business and including the development of |
| 9 | what became Pixar and what Industrial Light & |
| 10 | Magic and a range of other businesses that are |
| 11 | under his |
| 12 | CHIEF JUDGE SLEDGE: Mr. Bloch, you |
| 13 | need to move your lectern back to where it was. |
| 14 | BY MR. BLOCH: |
| 15 | Q. If you would, Mr. Faxon, keep your |
| 16 | voice up. |
| 17 | A. You want me to speak up a little bit? |
| 18 | Q. Just keep your voice up. |
| 19 | A. Usually people want me to quiet down. |
| 20 | CHIEF JUDGE SLEDGE: Just imagine, |
| 21 | Mr. Bloch, if you're having trouble hearing, the |
| 22 | folks in the back of the room are probably not |

| | Page 356 |
|----|---|
| 1 | able to hear anything. |
| 2 | THE WITNESS: So I anyway, I worked |
| 3 | for George Lucas for a number of years. I then |
| 4 | went and produced motion pictures and television |
| 5 | in partnership with others, and then subsequently |
| 6 | became the senior executive vice president of |
| 7 | Columbia Pictures Industries, in charge of the |
| 8 | motion picture division of that business. And |
| 9 | then, when it was acquired by Sony, remained in |
| 10 | that position. |
| 11 | BY MR. BLOCH: |
| 12 | Q. Did you hold any other private industry |
| 13 | position before you came to EMI? |
| 14 | A. Yes. I became after a short stint |
| 15 | in New York to learn the business, I became |
| 16 | managing director, which is the equivalent of |
| 17 | chief executive, of EMI I only wish of |
| 18 | Sotheby's in Europe, based in London. |
| 19 | Q. When did you first work in the music |
| 20 | industry? |
| 21 | A. In 1994 I joined EMI in a role that put |
| 22 | me in charge of business development that's |

| | Page 357 |
|----|--|
| 1 | investments on behalf of the company and |
| 2 | strategy and planning. And in that capacity I was |
| 3 | responsible for the planning and budgeting process |
| 4 | for the entirety of what was then called EMI Music |
| 5 | which encompassed what EMI Group is today, the |
| 6 | music publishing business and the recorded music |
| 7 | business. |
| 8 | Q. In total, how many years have you |
| 9 | worked for EMI? |
| 10 | A. As of April, it will be 14 years. |
| 11 | Q. And can you go into a little more |
| 12 | detail about what your duties and responsibilities |
| 13 | were I think you said you were senior vice |
| 14 | president of worldwide business development. |
| 15 | A. Right. My responsibilities were in the |
| 16 | day-to-day management of the company, to |
| 17 | effectively be the right-hand man of the chief |
| 18 | executive. I was responsible for developing |
| 19 | business plans at the detail at the country, |
| 20 | and in the United States at the label level, in |
| 21 | the recorded music business and in the publishing |
| 22 | business, again, on a national basis. And in the |

| | Page 358 |
|----|--|
| 1 | United States, clearly it's a unified business. |
| 2 | I was also responsible for the |
| 3 | development of long-term strategic plans for the |
| 4 | business as a whole, and in that regard, |
| 5 | obviously, I had to be cognizant of market trends, |
| 6 | competitive issues and performance and the like. |
| 7 | So on the budgeting side, I was responsible for |
| 8 | the detailed budget of the business. |
| 9 | Q. Did you review documents in connection |
| 10 | with EMI's music business? |
| 11 | A. Most definitely. It was where most of |
| 12 | the effort was put because it was clearly the |
| 13 | business that provided the greatest upside |
| 14 | potential for the business. |
| 15 | Q. Did you review documents concerning |
| 16 | EMI's music publishing business? |
| 17 | A. I did, yes. |
| 18 | Q. Did you review any data forecast or |
| 19 | other industry-type information? |
| 20 | A. All the time. I was I gathered data |
| 21 | from a wide range of sources to again, to |
| 22 | understand the context in which the business was |

| | Page 359 |
|----|---|
| 1 | operating and its competitive setting. And that |
| 2 | involved publicly available data as well as data |
| 3 | that we specifically commissioned work to gather. |
| 4 | Q. What other positions have you held in |
| 5 | EMI? |
| 6 | A. I moved from the position we just |
| 7 | talked about to being chief financial officer |
| 8 | executive vice president chief financial officer |
| 9 | of EMI Music Publishing worldwide. And in that |
| 10 | role I was I had operation oversight over the |
| 11 | Latin American and Asian businesses and |
| 12 | operational responsibility on the administrative |
| 13 | side, which would mean licensing many of the |
| 14 | things we're going to talk about today |
| 15 | royalties, accounting, and the like, and for the |
| 16 | worldwide business and across all divisions. |
| 17 | And I was pretty much intimately |
| 18 | involved in the not pretty much. I was in that |
| 19 | role, responsible for the strategic planning and |
| 20 | financial performance of business. |
| 21 | Q. Did you have any dealings or oversight |
| 22 | involving EMI music? |

| | Page 360 |
|----|--|
| 1 | A. Not directly not in that role. But |
| 2 | during that time, which coincided with a proposed |
| 3 | merger between Warner Music Group and EMI, I was |
| 4 | involved in the development of the transaction, |
| 5 | and then subsequently took on the role took on |
| 6 | the responsibility for guiding the regulatory |
| 7 | review responses to regulatory reviews around |
| 8 | the world. |
| 9 | In that role, that meant that I had to |
| 10 | develop, for those regulatory filings, a massive |
| 11 | amount of data and information related to the |
| 12 | performance of the business, its competitive |
| 13 | setting, marketplace and the like. And at my |
| 14 | direction, we commissioned a range of studies in |
| 15 | support of our applications. |
| 16 | So at a very detailed level, down to |
| 17 | pricing decisions, terms of trade in each country, |
| 18 | in each label, across the entirety of the record |
| 19 | side of the business, and similarly for the |
| 20 | publishing side of the business. |
| 21 | Q. What position did you hold next? |
| 22 | A. I then was appointed chief financial |

| | Page 361 |
|----|--|
| 1 | officer of EMI Group, the parent company, which by |
| 2 | that time was an independent company. It |
| 3 | previously, when I joined in '94, was part of a |
| 4 | larger conglomerate, a company called Foreign EMI. |
| 5 | It then became the EMI Group, and during that |
| 6 | period it had, in part, spun off the HMV record |
| 7 | store business, though it remained a significant |
| 8 | shareholder. |
| 9 | So that business I became chief |
| 10 | financial officer of and was involved at that |
| 11 | time, the leadership of the recorded music part of |
| 12 | the business was changed and someone whose name |
| 13 | may appear in these proceeding, Alain Levy and |
| 14 | David Munns, were appointed as the to lead that |
| 15 | division. And in that connection, I worked |
| 16 | intimately with them to develop a reorganization |
| 17 | plan for the recorded music business in order to |
| 18 | adjust its cost base and to refocus its business. |
| 19 | Q. Did you review documents in connection |
| 20 | with both EMI Music and EMI Music Publishing in |
| 21 | that capacity? |
| 22 | A. Most definitely. I was responsible |

| | Page 362 |
|----|---|
| 1 | worldwide for the entire financial performance of |
| 2 | the business in my role. And as a board member, I |
| 3 | was responsible for the operating and as a |
| 4 | member of the executive committee, I was |
| 5 | responsible, with my colleagues, for the |
| 6 | operational performance of the business. |
| 7 | Q. What position did you hold next, sir? |
| 8 | A. Then I was asked to ultimately take on |
| 9 | the position that I am now in through a |
| 10 | transitional plan where I first became president |
| 11 | and chief operating officer of EMI Music |
| 12 | Publishing. In that role, I again, I took on |
| 13 | responsibility for running the rest of the world, |
| 14 | if you will, all the territories outside of North |
| 15 | America, and the underlying operational |
| 16 | business that's, again, licensing, royalties, |
| 17 | accounting and so on. |
| 18 | And then I subsequently became co-chief |
| 19 | executive officer with my predecessor, and we |
| 20 | shared responsibility for the business equally, |
| 21 | across all aspects of the business. And I |
| 22 | rejoined at that point the board of directors of |

Page 363 1 EMI Group. And the transition period, when did 2 3 that begin? Α. It began in 1995 -- 2005, sorry. 5 And you became chairman --0. Missed a decade there. Α. -- chairman and CEO --Q. 8 Α. This last year. Okay. And did your duties and 10 responsibilities change over that period of time or did they remain basically the same? 11 12 They evolved into having a broader set 13 of authority over the business, but I had pretty much the same sort of involvement in the business. 14 15 In those capacities, did you have 16 occasion to see business documents relating to EMI 17 Music? 18 I did, in my role as a director, but not in my role as chief executive or in the 19 20 previous roles of EMI Music Publishing. So as a 21 director, yes, monthly financial reports, monthly 22 executive committee meetings, and certainly --

| | Page 364 |
|----|---|
| 1 | eight times a year we had board meetings. |
| 2 | Q. Mr. Faxon, did you serve on any boards |
| 3 | or participate in trade associations relating to |
| 4 | the music industry? |
| 5 | A. Yes, I serve on three boards. I serve |
| 6 | on the National Music Publishers' Association |
| 7 | board. I also serve on the ASCAP board, which is |
| 8 | a performing which is one of the performing |
| 9 | rights societies here. And on a range of |
| 10 | committees on both of those. |
| 11 | And I also am a board member of a |
| 12 | business called Music Choice. It's a partnership, |
| 13 | and its business many of you probably are |
| 14 | familiar with on your cable systems. You turn it |
| 15 | on and music plays on a range of channels. It's a |
| 16 | business that is not only involved in providing |
| 17 | music services in the cable world, but it has |
| 18 | grown to providing music services in online and |
| 19 | mobile I guess mobile platforms as well. And I |
| 20 | serve on their on its compensation committee |
| 21 | and have done so for many years. |
| 22 | It was my very first investment when I |

Page 365 1 took on business development for EMI. 2 And on ASCAP, what is your role as a 0. board member? 3 Α. As I -- I chair the long-term strategy 5 committee, planning and strategy committee. And as of this morning I see that I have been appointed chairman of the financial -- finance committees. 8 0. Can --10 Α. Just to be clear, I did not run for 11 such a position. 12 How does EMI Music Publishing rank in 13 the music publishing industry today? 14 Well, I heard you earlier -- and I have 15 to correct you that we're the largest music 16 publisher in the world. I think that mantle has 17 passed to Universal with the acquisition of BMG. But I would assert that we're the best music 1.8 19 publisher in the world, and I'm under oath, so it 20 has to be true. 21 How large is EMI Music Publishing 22 compared to other music publishers?

| | Page 366 |
|----|---|
| 1 | A. Well, it's only slightly smaller than I |
| 2 | understand though I haven't seen published |
| 3 | figures that Universal is. But it tends to |
| 4 | be it is certainly a large music publisher. |
| 5 | It's the next biggest after us would be |
| 6 | Warner/Chappell, and I think that's about |
| 7 | two-thirds of our size. |
| 8 | Q. And what are EMI Music Publishing's |
| 9 | revenues? |
| 10 | A. Its revenues in dollars would be the |
| 11 | equivalent of about \$800 million of turnover a |
| 12 | year. |
| 13 | Q. And the U.S. portion of that? |
| 14 | A. Just under half just around so it |
| 15 | would be around 300, 350 million. It does depend, |
| 16 | year on, on the translation of currency because a |
| 17 | reasonable portion of the revenues that we gain |
| 18 | under U.S. copyrights come from abroad. |
| 19 | Q. How many songs does EMI Music |
| 20 | Publishing represent in EMI Music Publishing's |
| 21 | catalog? |
| 22 | A. I like to talk about them as |

Page 367 1 compositions because they -- song denotes a 2 certain structure of music. But the compositions that we represent are about 1.3 million worldwide. 3 How many songwriters does EMI Music 5 Publishing represent? The -- the way to -- we represent 6 royalters, in other words, people who are entitled 8 to be -- to receive revenues from the exploitation of their work, so about 46,000 of them. 10 of -- most of those are songwriters, but many of 11 those could be heirs or assignees. 12 How many active songwriters does EMI 13 Music Publishing represent? 14 Α. About 700. 15 Can you identify for the court some of 16 the songwriters that EMI Music Publishing has 17 represented in the past or currently represents? 18 Well, I think the -- the statement I 19 think itself does a pretty good job of giving you 20 a sense of the breadth of who we represent. 21 we represent songwriters who have been active in 22 the past, Carole King, Stevie Wonder, who

Page 368 obviously is still active. We represent current 1 2 songwriters of well -- well-known. Alicia Keys 3 this last week led the charts in -- with her latest album. James Blunt. And a vast array of 5 songwriters. Many of the songwriters that we represent are names that you would not recognize, 6 and they toil in the background. But they're no 8 less talented and important. 9 Does EMI Music Publishing also 10 represent writer-producers? 11 Α. Yes. 12 What are writer-producers? 13 Α. Well, a writer-producer -- well, let's 14 start with what a producer is. A producer is 15 someone who brings together the elements to create 16 a great recording. So they bring together the 17 song, they bring together the -- the people who play on it, the performers, and they use their 18 19 skill as songwriters to knit those together in the 20 best possible package. And that's -- and that has 21 become a skill of some importance in -- as music 22 has developed.

| | Page 369 |
|----|--|
| 1 | Q. Can you give the court a couple of |
| 2 | examples of writer-producers? |
| 3 | A. Well, I think the this is a this |
| 4 | is a skill that's the greatest prevalence is in |
| 5 | the urban world. So Jimmy Jam and Terry Lewis, |
| 6 | P. Diddy, Jermaine Dupri, and so on. These are |
| 7 | all hugely successful producer-songwriters. |
| 8 | Q. And just to sort of round out the |
| 9 | repertoire, if we can, can you identify a few of |
| 10 | the more well-known songs that EMI has kept? |
| 11 | A. Every Breath You Take; New York, New |
| 12 | York; Somewhere Over the Rainbow; I Heard It |
| 13 | Through the Grapevine; Ain't No Mountain High |
| 14 | Enough. |
| 15 | This is a this is a very dangerous |
| 16 | thing to get me to start to do. |
| 17 | Q. All right. Then I will stop. |
| 18 | Based on your 14 years' experience with |
| 19 | EMI, have you gained an understanding of the music |
| 20 | publisher's role in making music available to the |
| 21 | public? |
| 22 | A. Well, if I didn't, I don't think I |

| | Page 370 |
|----|---|
| 1 | would hold my job. So, yes, I do think I have an |
| 2 | understanding of what our role is. |
| 3 | Q. And what is that role? |
| 4 | A. Well, first and foremost, our role is |
| 5 | to we're a service business. Songwriters come |
| 6 | to us to obtain a service. They want us to do |
| 7 | something for them. And what are those things? |
| 8 | Well, first and foremost, they want us to help |
| 9 | them develop their skill, their talent as a |
| 10 | help them develop their talent as songwriters. |
| 11 | And we do that in a wide variety of ways, but |
| 12 | simply put, we have a staff that works with them, |
| 13 | helps them understand how better to improve their |
| 14 | music. |
| 15 | Sometimes that involves creating |
| 16 | collaborations with other songwriters, whether |
| 17 | they're signed to us or not. And and it is an |
| 18 | ongoing process. |
| 19 | So the next thing that our |
| 20 | responsibility is is to service we offer is to |
| 21 | try and make their music widely available and |
| 22 | understood, to create demand for it, if you will. |

| | Page 371 |
|----|--|
| 1 | And there's, again, a wide variety of ways to do |
| 2 | that. Today we're talking about mechanical rights |
| 3 | where music is recorded, and obviously one of the |
| 4 | most important things for us to do is to get our |
| 5 | songs the songs we represent recorded. It |
| 6 | allows for a broad dissemination of that music. |
| 7 | But we also work to get it played in clubs and |
| 8 | into the repertoire of orchestras and bands around |
| 9 | the world. |
| 10 | Once we have done that, it's our job to |
| 11 | be sure that we have commercialized it, and we go |
| 12 | and collect money. We actually license and create |
| 13 | a legitimate world where we are obtaining revenue |
| 14 | for them. And that means that we have to be sure |
| 15 | that we are getting a fair price for the use |
| 16 | that's been contracted for. |
| 17 | And, finally, our role is to assure |
| 18 | that those rights are protected. And there are |
| 19 | two and when I say "those rights," there are |
| 20 | two sorts of roles here. |
| 21 | We will hear a lot in this proceeding |
| 22 | about piracy, and piracy is a hugely that is |

| | Page 372 |
|----|--|
| 1 | where somebody is stealing the value of the music |
| 2 | that our songwriters are creating. And we act |
| 3 | pretty decisively against them. Our goal |
| 4 | generally, though, is not to go out and be in |
| 5 | lawsuits. It is to try and turn people who are |
| 6 | being who are using our music without |
| 7 | authority, turn them into being legitimate |
| 8 | outlets. And the so that's one part of this |
| 9 | protecting role. |
| 10 | The other is that these rights these |
| 11 | songs are creations. They are out of the soul of |
| 12 | the songwriters we represent, and so we don't want |
| 13 | them to be misused, to be the creative |
| 14 | integrity of them. So we act to protect that. |
| 15 | And those are the broad top elements |
| 16 | of what our job is. And if we do it well, |
| 17 | songwriters come to us and and we have a |
| 18 | business. If we don't do it so well, we don't |
| 19 | have such a good business. |
| 20 | Q. If you would, please turn to page 4 of |
| 21 | your statement, paragraph 9. Do you see that? |
| 22 | A. Yes. |

| | Page 373 |
|----|--|
| 1 | Q. In that paragraph you refer to the |
| 2 | intrinsic value of a song. Do you see that? |
| 3 | A. Yes. |
| 4 | Q. What do you mean? |
| 5 | A. Well, I think in my day-to-day |
| 6 | business, I don't license anything for zero unless |
| 7 | I believe it's going to draw value. And why don't |
| 8 | I do it for zero? Because the song itself has an |
| 9 | intrinsic value. There is a base level of value |
| 10 | that is by the nature of it as a composition. |
| 11 | To believe otherwise is to believe |
| 12 | there is no you know, that the only thing in |
| 13 | the world is the value is is what somebody |
| 14 | will pay for it. No. It's what you believe it's |
| 15 | worth is one part. And then that's married to |
| 16 | what people will pay for it. |
| 17 | And at the end of the day, we believe |
| 18 | and I believe and I conduct my business so |
| 19 | as to be sure that people recognize that each |
| 20 | composition we represent has a value, and that |
| 21 | value is not zero. |
| 22 | Q. Do musical compositions have an |

| | Page 374 |
|----|--|
| 1 | intrinsic value in different contexts? |
| 2 | A. Yes. I think if you start with |
| 3 | if you start with the principle I start with, |
| 4 | which is that it has a value, now you have to say, |
| 5 | how do you measure that value above a base level? |
| 6 | Well, you look at the contribution that |
| 7 | that work has to the economic viability of the |
| 8 | of the output that it's associated with, the work, |
| 9 | if you will. And the greater the contribution, |
| 10 | the greater the share should be. |
| 11 | And by the way, that is exactly the way |
| 12 | we license our works. |
| 13 | Q. We will come back to that. You |
| 14 | identified a number of services and roles that EMI |
| 15 | Music Publishing provides. I would like to |
| 16 | explore them with you in a little more detail. |
| 17 | First, one of the things you referred to is the |
| 18 | fact that EMI Music Publishing discovers or |
| 19 | develops new songwriters. |
| 20 | A. Yes. |
| 21 | Q. How does EMI Music Publishing do that? |
| 22 | A. Well, we have a staff that's dedicated |

| | Page 375 |
|----|--|
| 1 | to that, and the and that staff searches out |
| 2 | great songwriters. And that means that I think |
| 3 | we need to differentiate. Again, these |
| 4 | proceedings will inevitably sort of cloud the |
| 5 | difference between recording artist and a and a |
| 6 | songwriter. There is a different skill. |
| 7 | Sometimes they come in the same package. Billy |
| 8 | Joel is a great example of somebody who comes in |
| 9 | the same package. He's a fantastic songwriter and |
| 10 | just a fabulous performer. |
| 11 | Sometimes they don't, and quite often |
| 12 | they don't. You know, Judy Garland did not write |
| 13 | Somewhere Over the Rainbow, and I don't think |
| 14 | anybody in this room thinks that she did. You |
| 15 | know, Harold Arlen did and, trust me, he was a |
| 16 | hugely talented man. So first and foremost, |
| 17 | finding somebody who has the capability of writing |
| 18 | is a different skill than finding somebody who is |
| 19 | a performer. Sometimes they overlap, and that's a |
| 20 | great thing. It's a marvelous world, because what |
| 21 | makes great music is a great song brilliantly |
| 22 | performed. |

| | Page 376 |
|----|--|
| 1 | The nice thing about songs is that it |
| 2 | can be poorly performed, and then you can take it |
| 3 | to somebody else who brilliantly performs it. |
| 4 | And so our job is to go out and find those. |
| 5 | And we do that in a whole variety of ways. |
| 6 | In today's world, the internet is a |
| 7 | very good way to go out and reach further into the |
| 8 | populace to find people who have the talent. But |
| 9 | most often they don't actually have the developed |
| 10 | talent that will allow a commercial them to be |
| 11 | commercially successful. They need to be a |
| 12 | professional songwriter. That means they have to |
| 13 | dedicate the time and effort. |
| 14 | I gave a little talk not too long ago |
| 15 | to my daughter's school about what the difference |
| 16 | between being a professional songwriter is and |
| 17 | what being an amateur. And they had just done |
| 18 | a school play. I said, well, you guys had fun. |
| 19 | You really enjoyed it. You think you're good |
| 20 | actors. Do you think that you could play on |
| 21 | Broadway? And the answer is of course they |
| 22 | couldn't. And they answered correctly, thank you. |

| | Page 377 |
|----|--|
| 1 | And so it's a different somebody who |
| 2 | works as a songwriter and develops their talent so |
| 3 | that it becomes a commercial you have a |
| 4 | commercial outcome is somebody who dedicates |
| 5 | themselves as a professional. Amateurs are all |
| 6 | around, and sometimes, on rare occasions, they |
| 7 | create the one-off song, but that's really not the |
| 8 | reality. The reality is you have to dedicate |
| 9 | yourself to it. |
| 10 | Q. Let me ask you this. Has |
| 11 | CHIEF JUDGE SLEDGE: Do I understand |
| 12 | you to use the word "professional" in a loose way, |
| 13 | to define people that are employed and make an |
| 14 | income from that employment? |
| 15 | THE WITNESS: Yes. Yes. That's |
| 16 | exactly the point is that you use that skill to |
| 17 | create a flow of income to support yourself so you |
| 18 | can do it mostly full-time. |
| 19 | CHIEF JUDGE SLEDGE: It has nothing to |
| 20 | do with the standard definition of professional? |
| 21 | THE WITNESS: I'm not sure that I could |
| 22 | give you the standard definition of professional |

| | Page 378 |
|----|---|
| 1 | other than just to simply convey what I meant, |
| 2 | which is that somebody who can make a living at |
| 3 | it, who spends most of their time let me put it |
| 4 | that way spends most of their time dedicated to |
| 5 | developing music that has a commercial has the |
| 6 | ability to be commercially exploited. |
| 7 | BY MR. BLOCH: |
| 8 | Q. Has EMI Music Publishing had any |
| 9 | notable successes in discovering talent in the |
| 10 | last ten years? |
| 11 | A. Well many, many, and I think the |
| 12 | but I will stick to the ones that are related |
| 13 | that are in the in our in my statement. |
| 14 | Alicia Keys and James Blunt are interesting |
| 15 | examples because I think they're illustrative of |
| 16 | what it is to become a in my words, a |
| 17 | professional songwriter. Alicia was a very young, |
| 18 | green songwriter and performer, largely a |
| 19 | songwriter at the time. She was 16 years old, and |
| 20 | she was found, if you will, discovered by Jody |
| 21 | Gerson who at the time worked for EMI Music |
| 22 | Publishing. |

| | Page 379 |
|----|---|
| 1 | Over the next over the course of the |
| 2 | next five years, we put her together with other |
| 3 | songwriters to learn her craft, to develop her |
| 4 | skill, and we provided her with financial support |
| 5 | in the form of advances to help her be able to |
| 6 | spend the time to do that. And why did we do |
| 7 | that? We believed in her talent. And we invested |
| 8 | \$500,000 in advances to the point at which she put |
| 9 | out a hugely successful record. |
| 10 | Now, it was the bumpy road. She was |
| 11 | we helped her get signed to Sony a Sony music |
| 12 | label. And, unfortunately, her sponsor there was |
| 13 | let go and, therefore, she was dropped. But with |
| 14 | great it was serendipitous that that happened |
| 15 | because then the great creative marriage was made |
| 16 | between Clive Davis and J Records and Alicia, and |
| 17 | that has been a fantastic outcome. |
| 18 | But she is a person who is consistently |
| 19 | trying to improve her craft. And so we work with |
| 20 | her every day, we're constantly involved with her, |
| 21 | helping bringing new, other songwriters |
| 22 | together with her to and so, as I said earlier, |

Page 380 the result is she has a fantastic album today and 1 is doing extremely well. 2 Does EMI Music Publishing continue to 3 work with Ms. Keys even though she has been a 5 commercial success? Α. Absolutely. 0. How so? 8 Well, as I said, we create collaborations for her which expand the nature of her music and enhance it. But we -- it's really 10 11 important in all of this to understand that we 12 don't claim credit for -- for Alicia Keys. 13 Keys did it. What we provided to her was the tools that she could avail herself of to become 14 15 the great success that she was, and that's the 16 service we provide. The big service we provide 17 her was the financial support to get there. And the -- but we also -- James Blunt 18 19 is a good example of other tools that were applied 20 to help make -- help him become a successful 21 songwriter. Again, we identified him, found him, 22 He was not associated with a signed him.

| | Page 381 |
|----|--|
| 1 | record did not have a record deal at the time. |
| 2 | In fact, it was almost impossible to get him a |
| 3 | record deal. But before we did that, we put him |
| 4 | together with some of the greatest songwriters |
| 5 | working, and he honed his craft. He got his songs |
| 6 | into a place where they were commercial, and |
| 7 | You're Beautiful, I think, will run through most |
| 8 | everybody's brain because it's sort of imprinted |
| 9 | on it. And the and we found him a record |
| 10 | label, a small label associated with Warner Music, |
| 11 | who believed in him. |
| 12 | But it was not music that was readily |
| 13 | accessible through radio in the United States. So |
| 14 | how do you so we worked very closely with him |
| 15 | and with the record label to develop opportunities |
| 16 | to expose his music in other ways so there would |
| 17 | become broader demand. Synchronizations in you |
| 18 | know, we arranged for him to appear on Oprah, |
| 19 | which was a fantastically good thing, and so on. |
| 20 | A lot of opportunities. |
| 21 | And that's how we try and use our |
| 22 | business to do that, in conjunction with others |

| | Page 382 |
|----|--|
| 1 | who are equally interested. Certainly, Warner |
| 2 | Music did a fabulous job with James, and I |
| 3 | wouldn't want to want anybody to come away from |
| 4 | this thinking that somehow we, on our own, made |
| 5 | him a success. He was made he made himself a |
| 6 | success, and we and the record label helped him do |
| 7 | that. |
| 8 | Q. Did you make an advance did EMI |
| 9 | Music Publishing make an advance |
| 10 | A. Yes. |
| 11 | Q to help Mr. Blunt? |
| 12 | A. Yes, we did, and again, all of that |
| 13 | work I talked about to try and get his songwriting |
| 14 | and songs up to a level took time. And that meant |
| 15 | he had and took dedication of his time. And he |
| 16 | needed financial support. So we spent close to |
| 17 | \$300,000 before he actually had a record deal. |
| 18 | Q. Does EMI Music Publishing continue to |
| 19 | work with Mr. Blunt today? |
| 20 | A. Yes? Yes, indeed. |
| 21 | Q. Now, you've mentioned two specific |
| 22 | artists, Alicia Keys and James Blunt that EMI |

| | Page 383 |
|----|---|
| 1 | helped discover and develop. Are they typical of |
| 2 | songwriters you work with? |
| 3 | A. I only wish they were typical. The |
| 4 | fact is that most of the songwriters that we |
| 5 | represent do not have that level of success. And |
| 6 | the obviously we don't enter into an agreement |
| 7 | with a songwriter or in the expectation they |
| 8 | won't be successful. That's why we do it. But |
| 9 | the issues of creative development, the issues of |
| 10 | market forces, just the vagaries of the world |
| 11 | militate towards against having that sort of |
| 12 | success. |
| 13 | Q. What resources does EMI Music |
| 14 | Publishing devote to discovering new talent? |
| 15 | A. Well, we obviously have as I said |
| 16 | earlier, we have a staff. Most people call it an |
| 17 | A&R function. We call it actually, for |
| 18 | ourselves, we call it the creative function |
| 19 | because we don't we look at it as having a |
| 20 | broader sort of set of responsibilities. But it's |
| 21 | a worldwide effort, and the and it accounts for |
| 22 | something on the order of about \$15 million of |

| | Page 384 |
|----|--|
| 1 | overhead costs directly these are direct costs |
| 2 | related to that but the whole business is I |
| 3 | always find it again, I look at the business as |
| 4 | holistic. I mean, all of the things I've talked |
| 5 | about, the ability to license things and to get |
| 6 | are all about the fabric of helping develop an |
| 7 | artist, discover and develop an artist, or a |
| 8 | songwriter. |
| 9 | Q. I would like for you to look at what |
| 10 | was submitted as Exhibit CO 201 to your written |
| 11 | statement, which is part of Exhibit 3. |
| 12 | A. Yes. Yes, there is that word, A&R |
| 13 | budget, yes. |
| 14 | Q. Can you tell the court what this is, |
| 15 | please? |
| 16 | A. This is extracts of our financial |
| 17 | information that we maintain in our P&L. These |
| 18 | are P&L accounts that have been brought together |
| 19 | to represent the what we spend on A&R or what, |
| 20 | as I called it, creative. And, again, these are |
| 21 | direct costs, and as I said earlier, if you look |
| 22 | at the second box down, which is the U.S., we |

| | Page 385 |
|----|--|
| 1 | spend about \$15 million on per annum on the |
| 2 | direct costs of identifying and helping to develop |
| 3 | songwriters. That's our internal overhead costs, |
| 4 | I mean. |
| 5 | Q. Now, does do these resources make |
| 6 | finding new talent easy? |
| 7 | A. Well, no. No. It's not easy to find |
| 8 | people of great talent. I think we all know that |
| 9 | in all in all fields. |
| 10 | Q. Well, in the last couple years, for |
| 11 | example, how many songwriters has EMI Music |
| 12 | signed? |
| 13 | A. Well, roughly, we identified |
| 14 | CHIEF JUDGE SLEDGE: I'm sorry. I |
| 15 | didn't hear the question. How many songwriters |
| 16 | BY MR. BLOCH: |
| 17 | Q has EMI Music Publishing signed. |
| 18 | CHIEF JUDGE SLEDGE: Signed. |
| 19 | THE WITNESS: Signed. In other words, |
| 20 | entered into an agreement with to represent. |
| 21 | It works out to be around 60 a year |
| 22 | that we are involved newly involved with. |

Page 386 1 BY MR. BLOCH: Are you familiar with the terms of the 2 0. contracts that EMI Music Publishing enters into 3 with songwriters? 5 Α. Yes. Are there certain terms that are typical in EMI Music Publishing's contracts with songwriters? 8 Α. Yes. 10 Can you tell us what they are? Q. 11 Well, I mean, I think -- you know, 12 contracts have many terms, but I think the ones 13 that are probably most pertinent here are the --14 the headline financial terms, and there are two 15 aspects of them. There is -- we're providing a 16 service, so we get paid -- we get paid a fee, if 17 you will. And the -- and that fee is essentially 18 an at-risk fee. It's a proportion of future revenues that are -- that we're able to obtain in 19 20 connection with the compositions we represent. 21 that's the so-called split percentage that remains 22 with EMI or the percentage that moves on to the

| | Page 387 |
|----|---|
| 1 | songwriter we represent. |
| 2 | The other is the advance, which is a |
| 3 | cash amount that is paid in advance of receiving |
| 4 | or earning royalties. So that's an amount that is |
| 5 | an advance against the share that the songwriter |
| 6 | retains. And it's an for us, it's an at-risk |
| 7 | amount of money. It's a non-recourse advance. So |
| 8 | that means if those songs don't earn that money, |
| 9 | we don't get it back and the songwriter doesn't |
| 10 | have to pay us back. |
| 11 | Q. With regard to the split, how is that |
| 12 | determined? |
| 13 | A. Well, splits I think both items, |
| 14 | both the splits and the advances, are a |
| 15 | combination really relate to risk. Now, there |
| 16 | is a baseline business. We have overhead costs |
| 17 | that we have to return, and so we look to so we |
| 18 | have a base business cost. And we but we put |
| 19 | that entire operating base at risk against the |
| 20 | songs that we represent. So we need to return |
| 21 | that. We think about that. |
| 22 | But then there is a question of the |

Page 388 1 risk of -- of capital. So if we put an advance 2 up, then we need to get a return on it. 3 greater the risk, the greater the return has to And where the return comes is in the split. 5 So if you have a very high risk, you would have a higher -- you would have a higher -- you would have a higher share than if the risk was lesser. 8 And that's why you will see major artists, major 9 songwriters who are very successful having low 10 splits even though they have large advances, 11 because the risk in that is not as great as for an 12 unknown artist. 13 Q. Is there a typical or more common split today between songwriter and publisher? 14 15 Essentially, the typical is 16 really sort of the -- is really in the lower 17 quintile of -- of deals, but it is typical, is 18 75/25. Now, again, these are simplified views 19 because there are very many -- there are lots of 20 aspects, but in our industry you would talk about 21 a 75/25 deal, and people would know what that 22 meant. Generally it means 75 percent of the

| | Page 389 |
|----|---|
| 1 | revenues that are generated remain with the |
| 2 | songwriter and 25 percent goes with the is |
| 3 | retained by the publisher or, in our case, |
| 4 | obviously us. |
| 5 | Q. I would like you to look at what was |
| 6 | submitted as Exhibit CO 202 to your written |
| 7 | statement. |
| 8 | A. Yes. |
| 9 | Q. Do you see that? |
| 10 | A. I do. |
| 11 | Q. Can you tell us who prepared this |
| 12 | document? |
| 13 | A. This was prepared by our finance group. |
| 14 | And it's an extract of our business of our P&L. |
| 15 | Q. Is it based on actual financial EMI |
| 16 | Music |
| 17 | A. Yes. |
| 18 | Q Publishing |
| 19 | A. Yes. |
| 20 | Q financial information? |
| 21 | A. Yes. |
| 22 | Q. What does this exhibit show? |

| | Page 390 |
|----|--|
| 1 | A. Well, it reflects what our total |
| 2 | revenues are for a series of years, as you see, |
| 3 | and the overheads in each of those years, and |
| 4 | the and these are U.S. dollars. And the and |
| 5 | the and then it shows the amounts of advance |
| 6 | payments that are made in any of those years. So |
| 7 | if you took 2005, what you would see is that we |
| 8 | had 229 million of revenues, 36.8 million of |
| 9 | overheads and 54.8 million of advance payments. |
| 10 | That means that our advance payments |
| 11 | represented about 24 percent of our gross |
| 12 | turnover, or almost 150 percent of our overheads. |
| 13 | And perhaps, I think it is and I will say this |
| 14 | for myself, because it's my statement it's a |
| 15 | bit misleading to talk about it as a percentage of |
| 16 | revenue. Most of that revenue doesn't belong to |
| 17 | us. All right. Maybe the better way to think |
| 18 | about it is, what is it of your profits, your cash |
| 19 | flow? It represents about 100 percent of our cash |
| 20 | flow. |
| 21 | So, in essence, what we are looking at |
| 22 | is, effectively, rolling forward, putting to work |

| | Page 391 |
|----|---|
| 1 | the cash flow that we generate in every year, |
| 2 | investing it forward into the into new deals. |
| 3 | Q. Do you know what the final figures were |
| 4 | for your fiscal year 2007? |
| 5 | A. Yes. It was certainly on advances, |
| 6 | it was more in the mid-70s. |
| 7 | Q. Seventy |
| 8 | A. Seventy million dollars. It varies, by |
| 9 | the way this is a number that varies based upon |
| 10 | how effective you are at finding songwriters that |
| 11 | you want to support. |
| 12 | Q. Does EMI typically expect to recoup all |
| 13 | of these advances? |
| 14 | A. We don't make them with the expectation |
| 15 | we won't get them back. So the answer is yes, we |
| 16 | do expect to, but that's not necessarily what |
| 17 | happens. |
| 18 | Q. I would like you to look at what has |
| 19 | been marked as Exhibit CO 203 to your written |
| 20 | statement. |
| 21 | A. Right. Okay. This document is a |
| 22 | direct extract from our balance sheet, schedule |

| | Page 392 |
|----|---|
| 1 | off of our balance sheet. And it is, in effect |
| 2 | it, in effect, shows what the royalties are, and |
| 3 | maybe again why don't we just take that 2005 |
| 4 | number. |
| 5 | Q. Well, if I can, let me ask you |
| 6 | A. Okay. |
| 7 | Q what this exhibit shows for the |
| | |
| 8 | United States. |
| 9 | A. Oh, yes. So we have to go to the |
| 10 | second page. I'm sorry. If we go to the second |
| 11 | page so let's take 2005. This is a balance |
| 12 | sheet item, so it says how much do you have |
| 13 | outstanding in this investment? |
| 14 | So in at the start of 2005, we had |
| 15 | \$225,620,000 invested in advances. That year, we |
| 16 | made I will do rounding approximately 60 |
| 17 | million of additional investments. And then |
| 18 | there but we also got back because we put |
| 19 | money out, and we got recoupments. People |
| 20 | repay you know, royalties were able to repay |
| 21 | 75.9 million. So that meant at the end of the |
| 22 | year we had \$209,265,000 of gross investment in |

Page 393 1 advances. 2 Now, the number that I think is pretty 3 compelling here is that if you go down below that line -- and these are accounting entries; this is 5 what the auditors have certified as -- the question is how much of that 209.3 million is recoverable, will you get back? And the accounts reflect that 121 million of it is not recoverable. 8 So we put out 209 million, and we're 10 going to get back less than half of it, according 11 So there is -- previously we had taken a 12 charge of 113 million, and then we took an 13 additional charge of 7 million, and like all 14 accounting things, there's this something, "other 15 movements," which I could take you through, but 16 it's de minimis. 17 Well, let me ask you, from your experience as EMI Music Publishing's former chief 18 19 financial officer and as its current CEO, what's 20 the significance of this data in terms of the 21 financial risk that EMI takes in making advances 22 to someone?

Page 394 Well, if you -- if you look at the 1 accounting, the accounting tells you that you have 2 more than a 50 percent chance of losing your 3 4 investment. 5 Well, why, then, does EMI Music Q. Publishing take that risk? 6 Α. Because when you put the -- when you put the economics together and where you have 8 9 succeeded, where you -- it is sufficiently high 10 enough to essentially repay this amount of money 11 and to get a return, and that's basically what 12 the -- that is the name of the game. The name of 13 the game is to invest your money wisely so that 14 where you have been successful, you're 15 sufficiently successful to offset the costs 1.6 related to your mistakes. 17 I would like you to look at what has been --18 19 Α. And I hate to use that word, mistakes, because I don't think there are ever mistakes. 20 21 think they just didn't earn. 22 Q. I would like you to look at what was

| | Page 395 |
|----|--|
| 1 | marked as Exhibit CO 204 to your written |
| 2 | statement. |
| 3 | CHIEF JUDGE SLEDGE: Mr. Bloch, when do |
| 4 | you want to recess for lunch? |
| 5 | MR. BLOCH: This is as good as time as |
| 6 | any. |
| 7 | CHIEF JUDGE SLEDGE: Is this convenient |
| 8 | to your presentation? |
| 9 | MR. BLOCH: Sure. |
| 10 | CHIEF JUDGE SLEDGE: We will recess |
| 11 | until 1:10. |
| 12 | (Lunch recess.) |
| 13 | |
| 14 | |
| 15 | |
